PREPARATION

1. Shut off the power at the fuse box or circuit breaker box. If necessary, remove the old fixture and all mounting hardware from junction box.
2. Carefully unpack your new fixture and lay out all the parts on a clear area. Take care not to lose any parts necessary for installation.

ASSEMBLING THE FIXTURE (Fig. 1)

3. Thread rod (J) into rod (K). Carefully pass the wires through each rod during assembly. Repeat step 3 with rods (G), (H) and (I) until the desired hanging height is reached.
4. Loosen screws (D) (Size: #5-32*0.4"L) to separate the canopy (C) from the mounting plate (A).
5. Slip canopy (C) over rods (G, H, I, J) and allow it to rest on the fixture body. Thread nipple (F) into rod (G).
6. Align glass shade (M) followed by spacer (N) over socket (L) and secure with socket ring (O) via the wrench provided (Q).

MOUNTING THE FIXTURE (Fig. 1)

7. Raise the mounting plate (A) to the junction box (not provided) and secure with junction box screws (B) (Size: #8-32*0.6"L).
8. Install the fixture body into the mounting plate (A) by tilting at a slight angle so that the hanger ball (E) slips into the mounting plate (A) as shown. Align the notch in the hanger ball (E) to the tab on the mounting plate (A) to prevent the fixture from turning.

CONNECTING THE WIRES (Fig. 2)

9. At this point, connect the electrical wires as shown in figure 2, making sure that all wire connectors are secured. If your outlet has a ground wire (green or bare copper), connect the ground wires from the hanger ball and mounting plate to it. Otherwise, connect the ground wire from the hanger ball directly to the mounting plate ground wire and secure with the wire connectors provided. After wires are connected, tuck them carefully into the ceiling junction box.

COMPLETING THE INSTALLATION (Fig. 1)

10. Align canopy (C) to mounting plate (A) and secure with mounting screws (D) into slots (R), then canopy (C) clockwise until mounting screws (D) are in narrow part of slots (R), tighten with screwdriver.
11. Install the light bulb (P) (Supplied) in accordance with the fixture's specifications. (DO NOT EXCEED THE SPECIFIED WATTAGE!) (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!)
