

Congratulations on purchasing the latest version of Motor Tent that is designed to keep your ride clean and safe. The Motor Tent comes partially assembled, so it takes only minutes to complete. Start by checking the various components listed in the chart to familiarize yourself with the parts and make sure that you have all of them

 <p>A 1pcs</p> <p>B 1pcs</p> <p>C 12pcs</p> <p>E 2pcs</p> <p>F 2pcs</p> <table border="1"> <tr> <td>F</td> <td>4PCS</td> </tr> <tr> <td>G</td> <td>4PCS</td> </tr> <tr> <td>H</td> <td>4PCS</td> </tr> <tr> <td>I</td> <td>6PCS</td> </tr> </table>	F	4PCS	G	4PCS	H	4PCS	I	6PCS	<p>Step 1</p>  <p>We connect 2 C and 1 straight rod to form a D module, we need 6 such modules, and we connect the remaining 2 F and 1 straight rod to form an H module.</p>	<p>Step 2</p>  <p>As shown in the figure, we use part A and part B to connect to 6 D parts respectively, and finally connect to H. Note that H is the last part.</p>
F	4PCS									
G	4PCS									
H	4PCS									
I	6PCS									
<p>Step 3</p> 	<p>Step 4</p>  <p>To support the internal steel pipe, we have to install the tent</p>	<p>Step 5</p>  <p>The position with the reflective strip</p>								
<p>Step 6</p>  <p>The tail needs to be fixed to the ground with expansion screws</p>	<p>Secure the frame</p> <p>Weights can be placed on the flat bar connected to the D plate. Bolts can be used to fasten the swivel plates of A&B to concrete or other firm surface</p> <p>Fold Down and Storage</p> <p>The Motor tent is designed to fold down for storage as needed. While the Motor tent is still fully assembled, remove the bolts for the A frame and take out the H tubes. The motor tent can then collapse closed pivoting on the A and B base assemblies. Tie the ribs together at the top and then you can easily move it around.</p> <p>We wish you many years of quality Motorcycle Storage with you Motor Tent</p>
