

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unravel the supply power and ground wires and pass them through the center holes of center rod (B) and loop assembly (C).
4. Thread the bottom of center rod (B) onto the protruding nipple on the fixture body (A), as shown in the diagram, until snug.
5. Install the loop assembly (C) onto the top of center rod (B).
6. Attach the beads (D) to the rings on the loop assembly (C) and the fixture body (A), as shown in the diagram.
7. Carefully place glass (E) and cap (F) onto the socket of the fixture body (A).
8. Attach the beads (G) onto the hooks on the fixture body (A), as shown in the diagram.
9. Refer to the additional installation instructions included with the product for wiring and installation.
10. Install proper bulbs (not included) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
11. Restore power to the installation point and retain this sheet for future reference.
