

# WORM NERD

## How to Use Worm Tea Concentrate

### GETTING STARTED

If a healthier lawn or more abundant garden is your goal, then applying Worm Nerd's Worm Tea Concentrate is a simple and necessary care step. This chemical-free Worm Tea Concentrate contains live, beneficial microscopic organisms for soil enhancement and is ideal for houseplants, flowers, fruit trees, lawns, and food-producing gardens.

### HOW TO USE

Add 1/3 cup of tea concentrate per gallon of non-chlorinated water for immediate watering. Can be used as foliar spray.

### STORAGE

Keep out of bright light as UVA rays kill beneficial microbes. Store in 59°-79° F with loose cap for aeration.

### RESULTS

Best wishes to you as you start or continue your interest in gardening! Because it's derived from composting worms that have been fed Worm Nerd's Worm Grit as a digestion supplement, our tea contains 77+ trace elements and minerals. That's the secret to safely achieving the goal: healthy plants, healthy produce. For optimal results, do not use with chemical fertilizers. This Worm Tea Concentrate contains live, beneficial microscopic organisms that will not survive chemicals.
