Let's illuminate what your Wire-Free Smart Switch can do:

① Tune white light from warm to cool at the switch.

Go to **Cync App.** Set up and assign your Wire-Free Smart Switch and Tunable White or Full Color Lights to the same Room or Group. Toggle left or right on the switch to adjust color temperature. (smart lights sold separately)

② Control devices like fans and space heaters from the switch.

Go to **Cync App.** Set up and assign the Wire-Free Smart Switch and Cync Smart Plug to the same Room or Group. Plug the fan or space heater into the Smart Plug. (smart plug sold separately)
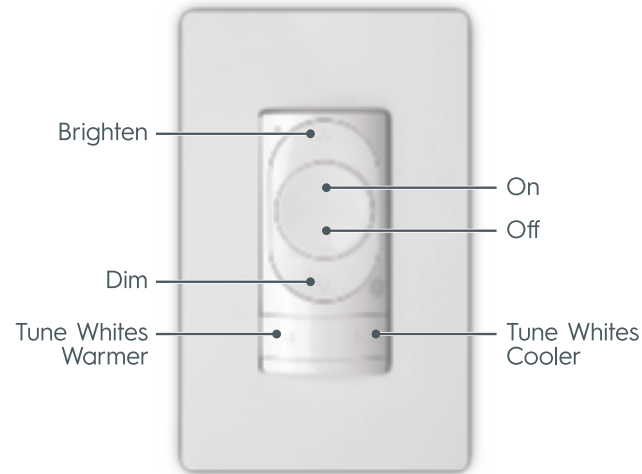

③ Create a 3-Way Switch without new wiring.

Go to **Cync App.** Set up and assign the Wire-Free Smart Switch and Cync Wired Smart Switch to the same Room or Group. The Wire-Free Smart Switch will control the Wired Smart Switch. (in-wall wired smart switch sold separately.)
