ASTILBE SARA'S CORAL - EXCLUSIVE

Astilbe is a very popular, rugged, versatile shade lover that thrives in moist conditions. They produce colorful, elongated flower plumes above divided fern-like green foliage in the summer and add bursts of impressive color to the garden landscape. Best yet, they are low maintenance, attract butterflies and are deer and rabbit resistant. They are quite diverse with hundreds of varieties to choose from. Each overachieves in providing splendid flower shows. Plant in groups or en mass to create a ground cover. Great for cutting when they are half opened.

*About This Variety:* Sara's Coral is an astilbe exclusive from Van Zyverden and not available elsewhere. It's known for its large, bold and densely filled flower plumes atop dark green colored foliage. The color is challenging to describe with no other like it. Besides its unique coloring, it is also known for its heat tolerance and disease resistance.

*Growing Instructions:* Plant in organically rich, evenly moist, well draining soils.

*Care Tip:* Prefers moist conditions.

*Blooms:* Spring

*Exposure:* Partial Shade

*Height:* Grows 24" tall

*Spacing:* Plant 18-24" apart, 1.5-2" deep

*USDA Zones:* Hardy in USDA zones 4-8

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
