

# Installation Manual

## wedi® Shower Niche Shelves

- Made from stainless steel
- Slotted design with rounded front edge
- The SS shelf may be inserted between and rest on tiles applied to the niche's interior sides and back wall. Clear silicone or grout color matching expansion joint material (sealant/ caulk) should be used in joints between the SS shelf and tile. It is recommended to protect the SS shelf with tape to avoid these materials getting on SS surfaces that will later be visible.

- Made from aluminum, anodized in Matte Black
- Slotted design with rounded front edge
- The MB shelf may be inserted between and rest on tiles applied to the niche's interior sides and back wall. Clear silicone or grout color matching expansion joint material (sealant/ caulk) should be used in joints between the MB shelf and tile. It is recommended to protect the MB shelf with tape to avoid these materials getting on MB surfaces that will later be visible.

- Made from 3/8 inch fully tempered, clear safety glass
- Front finish is pencil polished
- The glass shelf may be inserted between and rest on tiles applied to the niche's interior sides and back wall. Clear silicone or grout color matching expansion joint material (sealant/ caulk) should be used in joints between the glass shelf and tile. It is recommended to protect the glass shelf with tape to avoid these materials getting on glass surfaces that will later be visible.
