

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unravel the supply power and ground wires and pass them through the center holes of rod (B), rod (C) and loop assembly (E).
4. Thread the bottom of rod (B) to the socket assembly (A). Repeat process for remaining rod (C). Hand tighten until snug.
5. Install the loop assembly (E) into the top of rod (C).
6. Carefully place the glass shade (G) on the metal ring (H).
7. Align the bottom holes of the support arm (F) and metal ring (H) together, securing with screws (I).
8. Attach the chain of the top assembly (D) to the ring on the loop assembly (E).
9. Refer to the additional installation instructions included with the product for wiring and installation.
10. Install proper bulbs (not included) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
11. Restore power to the installation point and retain this sheet for future reference.
