**IRIS SIBERICA DOUBLE CONCORD CRUSH**

Wow! Double Concord Crush is a gorgeous, new, and unusual Siberian iris variety with double, blue-violet 5-5 1/2 inch flowers. The rhizomes produce narrow, grass-like leaves on strong stems. They are a very good naturalizer. Siberian Iris are suitable for borders, garden beds, wild gardens, along the edges of ponds, but not for growing in water. They do, however, combine easy care with grace and beauty. They make stunning cut flowers!

---

*Growing Instructions:* Plants grow best in moist acidic soil but also tolerates drier soil.

*Care Tip:* Upon receipt, soak your rhizomes in water overnight to jump start growth. Fertilization does them well. It is a good idea to remove spent bloom stalks both for garden appearance and to prevent reseeding. Feed in spring with a nitrogen rich fertilizer.

*Exposure:* Sun

*Height:* Grows 28-36" tall

*Spacing:* Plant 12-24" apart, slightly below soil level

*Hardy in:* USDA zones 4 -10

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
