Since 1857

Klein Tools has stood alongside the tradesmen who built America-job by job, generation by generation. Now, as our nation marks its 250th anniversary, we're honoring that legacy with an exclusive Red, White and Blue collection of USA hand tools. These precision-engineered, American-made tools are built to the standards professionals demand, featuring commemorative laser etching, patriotic handles, and special edition packaging, making them fit for the jobsite and true collectibles.

Made in the USA with the same uncompromising quality Klein Tools has delivered for over 168 years, the America's 250th Edition isn't just about celebrating where we've been, it's about honoring those that continue to build our future.
