

# PROTECT YOUR DECK

ALL YEAR, ANY WEATHER

Your deck needs protection, even when it's not in use. Learn what to protect your deck against and how to prevent wear so you can keep your outdoor oasis looking great, no matter the season.

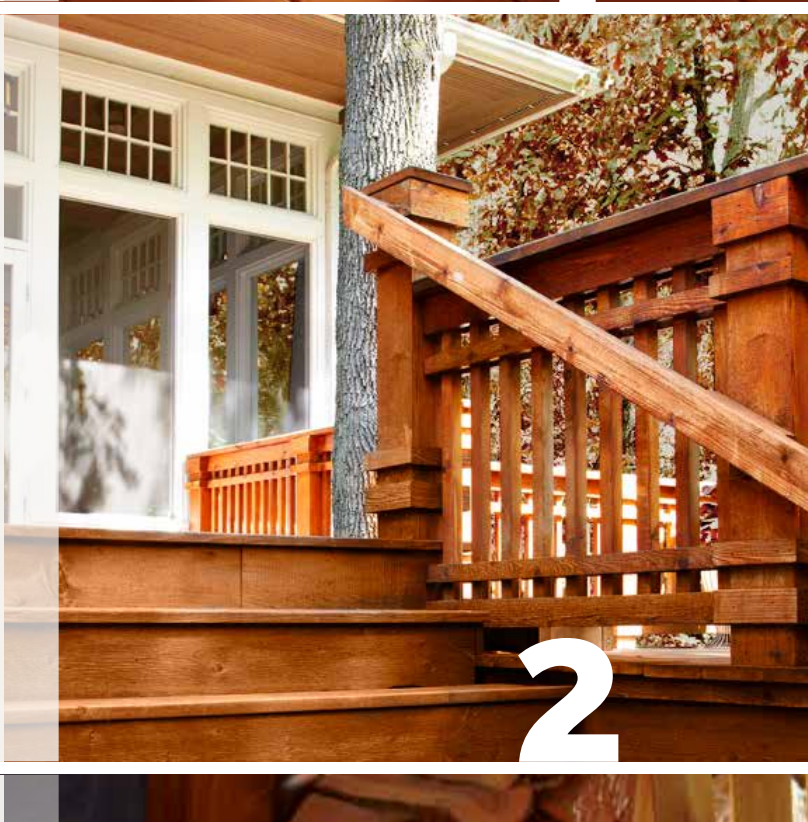

## WINTER DECK CARE:

**REMOVE SNOW AND ICE**  
from your deck as soon as possible

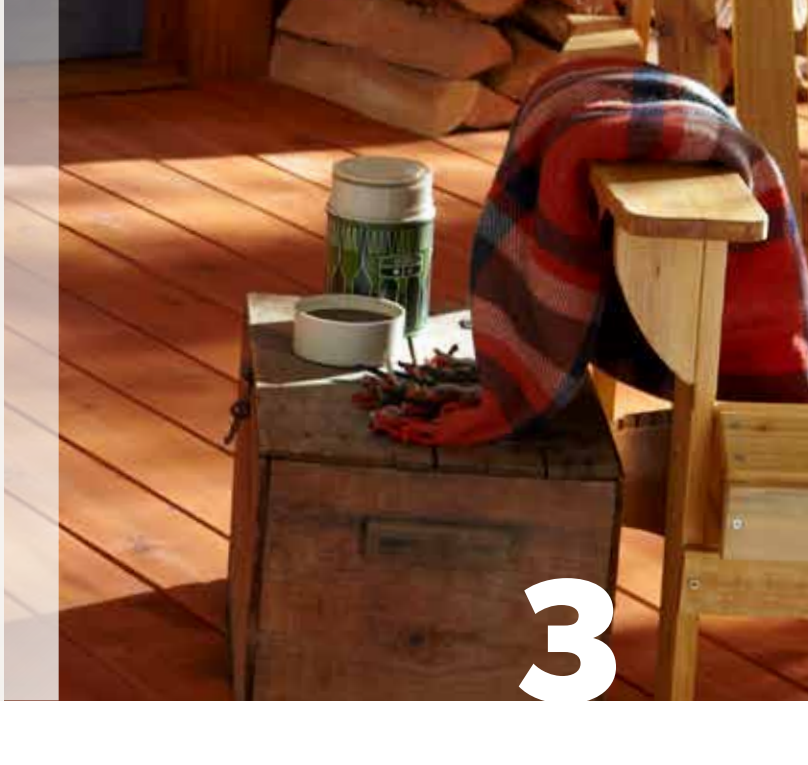

**PREVENT MELTED SNOW FROM DRIPPING**  
on and around your deck

**HOW?** Gently remove with a push broom or leaf blower. Install heating wires at the eaves to prevent ice buildup. Ensure proper attic insulation so snow doesn't turn to ice.

**PLACE FURNITURE COVERS**  
so they do not trap water on the deck surface

## PROACTIVE PROTECTION:

If building a new deck,  
**STAIN ALL SIDES OF THE BOARDS**

Divert water away from the deck  
**TO PREVENT WATER BUILDUP**

Seal around windows, doors  
and at corner trim boards  
**TO PREVENT WATER DRAINAGE ONTO THE DECK**

## DEFEND YOUR DECK

Choose lasting protection and beauty with Cabot® premium wood stains.
