

# Thank You

for bringing me home!

## Spruce Me Up

I've been in a dark box traveling. Here are some quick tips to get me settled:

- Remove yellow leaves or broked stems.
- If my soil is dry, give me a drink of water.
- Set me in the right light.

# PLANT CARE

## ZZ Plant

### Light

I like bright, indirect light where I cast a strong shadow at least a couple of hours a day, but tolerate low light

### Water

I don't want my roots to stay wet, so let the top two or so inches of the potting soil dry before you water me again.

### Food

I don't need a lot of fertilizer, so you can feed me once or twice in spring and/or summer. You can feed me more often if you want me to grow faster.

### Features

I'm one of the easiest-to-grow houseplants (forget to water me? No problem!).

### Growing tips

I tolerate low light, but in low light I'm a super slow grower. I can go a month without water if I need to.

### Give me friends! I play well with:

Sansevieria, Chameleon ZZ Plant, Aglaonema
