

The Carlisle Collection

Reimagine a backyard that you and your guests will love with modern furniture from the Carlisle collection. This 5-piece set includes a 48-in. slat-top table and four wicker dining chairs. Each piece is created using aluminum frames, coated with a high-performance dark brown finish that protects it from rust, scratches and harmful UV rays. The chairs have a tri-color weave, featuring tan, brown and light blue woven throughout. Thanks to construction using an open cell material that allows for water to disperse through the foam quickly, these reticulated foam seats are both quick-drying and incredibly comfortable. Finishing out the collection is the dining table, which boasts a slat top that is not only a design accent, but also serves a practical purpose in preventing excess water buildup on the table's surface. Everything in the Carlisle collection is tough enough to handle the elements but still comfortable enough to spend hours on your patio relaxing. Designed to last, rely on Agio to provide the most stylish dining sets under the sun.
