

Van Zyverden's
HEUCHERA PURPLE PALACE

Heuchera, commonly known as Coral Bells, is native to North America. More often grown for its leaves than its flowers. They can be planted in containers, borders, beds and woodlands. This evergreen perennial comes in traditional green-leaved varieties, the newer, bold variegations and everything else in between.

*Leaves change color
throughout the seasons*

Native to North America

1991 Perennial Plant of the Year

About This Variety: Purple Palace features stunning, dark purple leaves that may fade to a greener hue during summer. White bell-shaped flowers appear in summer. 1991 Perennial Plant of the Year.

Growing Instructions: Coral bells like a neutral to slightly acidic soil pH, somewhere between 6.0 and 7.0. Good drainage is a must, especially in shaded areas. Sitting in the damp soil will cause the crown to rot.

Care Tip: Cut back the entire flower stalk after blooming to put the plant's energy into growing more leaves.

Blooms: June to July

Exposure: Full sun to partial shade

Height: Grows 12-24" tall

Spacing: Plant 12-18" apart, 1.5-2" deep

USDA Zones: Hardy in USDA zones 4-9

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
