A large, light blue two-story house with a dark roof, white columns, and a green lawn. The house features a prominent front porch with white columns and a central arched entrance. The roof has three dormer windows. The house is surrounded by a well-maintained green lawn and some landscaping.

- 1** Mow lawn when grass height reaches 3" tall
Corte el césped cuando este alcance los 3 pulgados de altura.
- 2** Avoid removing more than 1/3 of the total grass blade length in any single mowing
Para mantener su césped grueso y saludable, no quite más de 1/3 del total de la longitud de la hoja en una sola cortada.
- 3** Hot summers can be stressful on your lawn; increase the mowing height during hot and dry periods to reduce stress on your lawn.
Las veranos calurosos pueden ser estresantes para su césped. Aumente la altura del corte durante los periodos calientes y secos para reducir el estrés en su césped.

Es muy importante que no utilice control de malezas en su césped hasta que el mismo haya alcanzado su máxima altura de corte de 3 pulgadas. ¡Esto podría matar a su césped!

NOTICE: Arbitration/conciliation/mediation required by several states. Under the seed laws of several states, arbitration, mediation, or conciliation is required as a prerequisite to maintaining a legal action based upon the failure of seed, to which this notice is attached, to produce as represented. The consumer should file a complaint along with the required filing fee with the commissioner/director secretary of agriculture, seed commissioner, or chief agricultural officer within such time as to permit inspection of the crops by the designated agency and the seedsmen from whom the seed was purchased. A copy of the complaint shall be sent to the seller by certified or registered mail or as otherwise provided by state statute.

Warning: Treated Seed. Do not use for food, feed, or oil purposes. Store away from feeds and foodstuffs. Keep out of reach of children. If swallowed, call poison control. This coating protects with a fungicide to keep seeds safe from diseases that harm them.
