

The Never Never Plant (also known Brazilian Snow) Care

Light

Prefers a well-lit area without direct sunlight

Water

Keep soil well drained but moist. Do not let the plant dry out.

Soil

Prefers well drained soil. If grown in container, repot every year or two.

Pruning

Other than removing damaged or dead leaves, it usually does not require pruning.

Feeding

During spring and summer, diluting the plant food at 1/2 the recommended strength and fertilize monthly. Fertilize every other month in the fall and winter.
