## General Care and Cleaning Tips for Bocchi Products

For best results, keep the following in mind when caring for your new product:

- ▶ Always test your cleaning solution on an inconspicuous area before applying to the entire surface.
- ▶ Wipe surfaces clean and rinse completely with water immediately after applying cleaner. Rinse and dry any overspray that lands on nearby surfaces.
- ▶ Do not allow cleaners to soak on surfaces.
- ▶ Use a soft, dampened sponge or cloth. Never use an abrasive material such as a brush or scouring pad to clean surfaces.

## Care and Cleaning Tips for Bocchi Fine Fire Clay Kitchen Sinks

- ▶ Rinse thoroughly and use a soft cloth to wipe the product dry after each use.
- ▶ Soft abrasive cleaners may be used when necessary to clean Bocchi fireclay products. Strong abrasive cleaners will scratch and dull the surface.
- ▶ Do not store open containers of cleaners or chemicals such as acids, bleach, sodium chloride, lye, toilet bowl cleaner, drain cleaner, or hard water stain removal products under your sink.

Success with cleaners and procedures is dependent upon such factors as the hardness and temperature of the water, using exact measurements of ingredients, changes in cleaning formulas and the condition of the product being cleaned. Since there are variations within these factors, Bocchi cannot guarantee the effectiveness of the formulas mentioned.

Bocchi kitchen sink accessories, including bottom bowl racks, wire rinse baskets, cutting boards and colanders will help to protect the surface of your sink.

The ideal cleaning technique is to always blot dry any water from metal surfaces. Allowing water to evaporate on metal will form water deposits. It is important to use a dabbing action to dry metal, not an abrasive or rubbing action. Cleaning with a damp sponge and buff drying should keep your product looking beautiful.
