1. Installation Options

- We recommend the Drop-in Top-mount kitchen sink installation method.
- Ensure there is ample room for faucet and backsplash installations.

2. Instructions

- Unpack and inspect the sink for any shipping damages and ensure that none of the required pieces are missing. If you find any damages, do not install, please contact us.
- We recommend consulting an experienced installer to make for assistance, and providing the installer with the actual size of our sink to ensure smooth installation.
- Use assistance when lifting the sink to avoid personal injury.
- If you are unfamiliar with installing kitchen fixtures and plumbing, consult a professional. We accept no liability for any damages to the floor, walls, plumbing, or personal injury during installation.

- **Sealant:** We recommend the use of a stone, marble and granite silicone caulk or a general purpose silicone sealant.
- **Note:** Installation tools are not provided, please prepare by yourself.

3. Installation Steps

Note: Drop-in Top-mount installation is recommended.

NOTE: Drawings may not exactly define contour of the product.

- **Measure the Hole for the Sink:** Turn the sink upside down and trace the outline directly on the countertop with a pencil. Make a second outline about 5/16 inch smaller than the original for the hole.

- **Countertop Cut-Out:** Drill a starter hole inside the cutout line. Use a saber saw to cut the opening in the countertop following the inside pencil line. Trial fit the sink to check for proper fit.

- **Apply Silicone Caulk:** Apply silicone caulk (not included) evenly all around the top of the sink flanges. Position and align the sink under the countertop opening. Press the silicone and flange up onto the countertop.

- **Insert the Sink:** Insert the sink into the opening hole and verify the sink fits correctly in the opening.
