

Van Zyverden's **PEONIES CORAL CHARM**

Peonies are perennials and are known to live for decades, even generations. The blooms are outrageously beautiful, producing lush, glossy green foliage all summer long, turning purplish or gold in the fall, as stately and dignified as any shrub. They are somewhat more expensive to propagate, but well worth the investment in your garden.

*A peony variety
which was years
in the making*

*Permanent investment
landscape plant, blooming
a 100 years or more*

Award winner

About This Variety: Paeonia Coral Charm is an award winner known for its brilliant color. It blooms early, the blossoms are semi-double atop glossy deep green foliage with elegantly bowl shaped blooms which are 5-6" in size. Now newly available at an affordable cost.

Growing Instructions: In most of the country, the rules for success are simply full sun and well-drained humus-rich soil. Peonies even relish cold winters, because they need chilling for bud formation. In zones 8 and higher they are harder to grow. They are not fussy, but choose your location wisely so that they can be left alone once planted. Plant away from trees or shrubs as peonies do not like to compete for food.

Care Tip: The plants require little maintenance as long as they are planted properly and establish themselves; they don't respond well to transplanting. Unlike most perennials, they thrive on benign neglect as they do not need to be dug and divided. Staking may be required. Prune foliage to the ground in the fall.

Exposure: Full sun to partial shade

Height: Grows 24-36" tall

Spacing: Plant 2-3' apart, 1.5-2" deep

Hardy in: USDA zones 3-8

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
