

Van Zyverden's
ELEPHANT EARS HILO BEAUTY

Elephant ear bulbs are among the most eye catching of the bulbs available for purchase. Not only are they one of the largest flowering bulbs, they are also very versatile in that they can grow with little sunlight to full shade. Beautiful on their own or planted as a back drop for your favorite blooms, they provide a bold tropical effect in nearly any garden. Once established, they require little to no attention. They are grown for their foliage, which is reminiscent of an elephant's ear.

*Bold, tropical,
variegated foliage*

Great for containers

Likes the heat

About This Variety: These leaves are a work of art with large white spots that grow 1 foot long and 10 inches wide. A great garden accent and specimen.

Growing Instructions: Plant outdoors only after soil and night temperatures have warmed up above 60°F.

Care Tip: They love water so much that you can even plant them around the edges of a pond. Never let the soil dry out.

Exposure: Sun to partial shade

Height: Grows 2-3' tall

Spacing: Plant- 2.5' apart, 2-3" deep

Hardy in: USDA zones 8-11

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
