

INSTALLATION INSTRUCTIONS

MODEL: CA-LBD5

Please keep this manual and product code number for future reference and for ordering replacement parts if necessary.

READ BEFORE YOU PROCEED!

TO KEEP GLASS FROM BREAKING, MAKE SURE:

1. This product is heavy and requires two people to install.
2. Glass corner protectors remain on during installation. ()
3. Glass protective seals are mounted to the door before opening/closing.

En

GENERAL INSTRUCTIONS

- Read this manual carefully and completely before proceeding.
- It is recommended that you wear safety glasses at all times during the installation.

CARE FOR YOUR SHOWER DOOR

- Never use scouring powder pads or sharp instruments on metal pieces or glass panels. An occasional wiping down with a mild soap diluted in water is all that is needed to keep the panels and aluminum parts looking new.
- We recommend wiping the glass panels with a squeegee after each use.

INSTALLATION OVER CERAMIC TILES

- If your shower door is to be installed over ceramic tiles, the tiles should lay completely under the wall jamb.
- Silicone should be used to seal the gap where the ceramic tiles meet the fixed panel.

NOTICE

- Caulking: no sealant is required inside the shower, unless otherwise stated.
- Some models are equipped with clear sealing gaskets.

◆ General Information

Please inspect the product immediately upon receipt for transit damage, missing packs/parts or manufacturing fault. Damage reported later cannot be accepted. Please handle the product with care avoiding knocks and shock loading to all sides and edges of the glass.

Notes: Safety glass can not be re-worked.

Please read these instructions carefully before start of installation.

Special care should be taken when drilling walls to avoid hidden pipes or electrical cables.

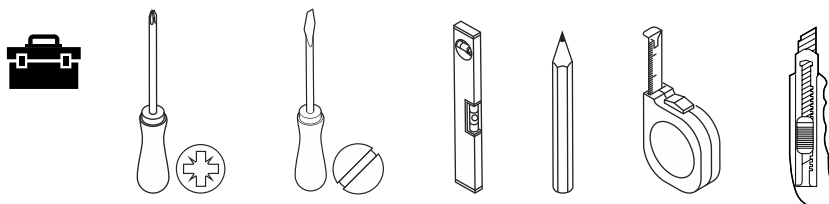

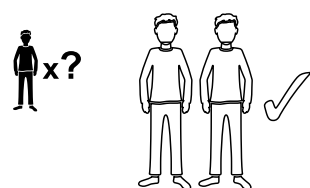

Note: This product is heavy and may require two people to install.

Aftercare instructions

After use, your shower should be cleaned with soap and water. This is particularly important in hard water districts where insoluble lime salts may be deposited and allowed to build up. Cleaners of a gritty or abrasive nature should not be used. Care should be taken to avoid contact with strong chemicals such as organic solvents and strippers.

Glass cleaners can be used but with caution, if in doubt contact the manufacturer of the cleaner in question.

Please keep these instructions for aftercare and customer service details.

01

[20] x1

Step 1: Confirm the position using Installing Auxiliary Components [20].

Step 2: Install U-Channel [01] and Bottom Guide [13].

[01] x1

[13] x1

03

Step 3: Attach Wall Gasket [05] to Fixed Panel [09].

04

Step 4: Place [09] the glass panel as shown in the figure. When the glass panel is balanced, [15] the gasket should be padded in 3 positions in the figure. If the glass door is unbalanced, [15] the gaskets are stacked together to adjust.

OR

05

Step 5: Measure opening and cut length of The Upper Guide Rail and Aluminum Seal to fit if necessary.

06

Step 6: Install Wall Bracket [12].

[16] x1

[17] x1 (0.1")

Step 7: Attach Round Bar to Fixed Panel. Check Panel and Bar for level. Tighten Wall Bracket over threaded end. Tighten set screws on Brackets.

08

[08] x1

[11] x2

[19] x1 (0.2")

Step 8: Attach Rollers [11] to Door Panel [08].

Step 9: Attach Bottom Door Gasket [06] to Door Panel [08].

09

[06] x1

[08] x1

10

[11] x2

Step 10: Attach Door Panel on The Upper Guide Rail. Attach Rollers to door and adjust accordingly.

Step 11: Attach Side Gaskets on Fixed Panel and Door Panel. Trim around The Upper Guide Rail as necessary. Attach Side Gasket [07] and Handle [10] on Door Panel.

Step 12: Install Aluminum Seal [02] and Caps [14A]&[14B].

[02] x1

[14A] x1

[14B] x1

[17] x1 (0.1")

[19] x1 (0.2")

Step 13: In closed position, check seal between Door Panel and Post. Loosen Roller to adjust upper or lower, and adjust Wall Post and Post for minor out of plumb. Once Door Panel slides smoothly and Magnetic Seal is tight, fasten rollers and affix 2-part posts together with screws.

Step 14: Apply silicone sealant around perimeter of shower enclosure.

INSTRUCTIONS D'INSTALLATION

MODÈLE: CA-LBD5

Veillez conserver ce manuel et le code de produit pour des références futures, et au besoin, la commande de pièces de rechange.

VEUILLEZ LIRE AVANT DE CONTINUER !

POUR ÉVITER QUE LE VERRE NE SE BRISE, ASSUREZ-VOUS QUE

1. Ce produit est lourd et son installation nécessite deux personnes.
2. Les protections d'angle du verre restent en place pendant l'installation. ()
3. Les joints de protection du verre sont montés sur la porte avant l'ouverture/la fermeture.

Fr

INSTRUCTIONS GÉNÉRALES

- *Lire attentivement et complètement le manuel d'installation avant de procéder.*
- *Il est recommandé de porter des lunettes de sécurité en tout temps lors de l'installation.*

L'ENTRETIEN DE VOTRE DOUCHE

- *Ne jamais utiliser de poudre ou de tampon à rincer, ni d'instrument tranchant sur les parties en métal ou en verre. De temps à autre, il suffit de nettoyer la porte avec une solution d'eau et un détergent doux pour conserver l'aspect neuf des panneaux de verre et du cadre en aluminium.*
- *Nous recommandons de passer une raclette de douche sur les panneaux de verre après chaque utilisation.*

INSTALLATION SUR LES TUILES EN CÉRAMIQUE

- *Si votre porte de douche doit être installée sur une bordure en céramique, le jambage doit reposer complètement sur cette dernière.*
- *Le calfeutrage doit être appliqué sur le côté extérieur de la douche où le panneau fixe rencontre la bordure en céramique.*

NOTE

- *Calfeutrage: aucun scellant n'est nécessaire à l'intérieur de la douche.*
- *Certains modèles sont dotés de joints d'étanchéité clairs.*

◆ Informations générales

Veuillez inspecter le produit dès sa réception pour vérifier qu'il n'y a pas de dommages dus au transport, d'emballages/pièces manquants ou de défauts de fabrication. Les dommages signalés ultérieurement ne peuvent être acceptés. Veuillez manipuler le produit avec précaution en évitant les coups et les chocs sur tous les côtés et les bords du verre.

Remarques : Le verre de sécurité ne peut pas être retravaillé.

Veuillez lire attentivement ces instructions avant de commencer l'installation.

Une attention particulière doit être apportée lors du perçage des murs pour éviter les tuyaux ou les câbles électriques cachés.

Remarque : Ce produit est lourd et son installation peut nécessiter deux personnes.

Instructions de suivi

Après utilisation, votre douche doit être nettoyée à l'eau et au savon. Ceci est particulièrement important dans les quartiers d'eau dure où des sels de chaux insolubles peuvent se déposer et s'accumuler. Les nettoyants de nature granuleuse ou abrasive ne doivent pas être utilisés. Il faut éviter tout contact avec des produits chimiques puissants tels que les solvants organiques et les décapants.

Les nettoyants pour vitres peuvent être utilisés mais avec prudence. En cas de doute, contactez le fabricant du nettoyant en question.

Veuillez conserver ces instructions pour les détails concernant le suivi et le service clientèle.

- [20] 1xInstallation des composants auxiliaires

01

[20] x1

Étape 1: Confirmer la position à l'aide de la fonction Installation des composants auxiliaires [20].

Étape 2: Installer le rail en U [01] et le guide inférieur [13].

[01] x1

[13] x1

03

Étape 3: Fixer le joint mural [05] au panneau fixe [09].

04

[15] x3

Étape 4: Placez [09] le panneau de verre comme indiqué dans la figure. Lorsque le panneau de verre est équilibré, [15] le joint doit être rembourré dans les 3 positions de la figure. Si la porte vitrée est déséquilibrée, [15] les joints sont empilés pour s'ajuster.

OR

05

Étape 5: Mesurez l'ouverture et coupez la longueur du rail de guidage supérieur et du joint en aluminium pour l'adapter si nécessaire.

Mesurez la largeur de l'emplacement de montage (L comme indiqué sur l'image), puis utilisez une scie pour couper [03] le rail de guidage supérieur à la longueur de L-1.18\".

06

[12] x1

Étape 6: Installer le support mural [12].

[16] x1

[17] x1 (0.1")

Étape 7: Fixez la barre ronde au panneau fixe. Vérifiez que le panneau et la barre sont de niveau. Serrer le support mural sur l'extrémité filetée et les vis de réglage sur les supports.

08

[08] x1

[11] x2

[19] x1 (0.2")

Étape 8: Fixer les rouleaux [11] au panneau de porte [08].

Étape 9: Fixez le joint de bas de porte [06] au panneau de porte [08].

09

[06] x1

[08] x1

[11] x2

Étape 10: Fixer le panneau de porte sur le rail de guidage supérieur. Fixer les rouleaux à la porte et les ajuster en conséquence.

Découper la bande avec des ciseaux jusqu'à ce qu'elle corresponde au rail de guidage supérieur.

Étape 12: Installer le joint en aluminium [02] et les capuchons [14A]&[14B].

Couper l'excédent [02] du joint en aluminium.

[17] x1 (0.1")

[19] x1 (0.2")

Étape 13: En position fermée, vérifiez l'étanchéité entre le panneau de porte et le poteau. Une fois que le panneau de porte glisse facilement et que le joint magnétique est bien serré, fixez les rouleaux et les poteaux en deux parties à l'aide de vis.

Étape 14: Appliquer du mastic silicone sur le pourtour de la cabine de douche.
