

POOL OPENING CHECKLIST

Are you ready to dive into pool season? Get everything you need for a swim-ready pool.

Opening your pool for the season is easy. First, get all the supplies you'll need to open your pool below. Then, if you need more help, read our step-by-step guide to how to open your pool or our website, www.cloroxpool.com, with further instructions and recommendations.

Shock

Pool shock kills bacteria, removes contaminants, and improves water filtration. Shocking your pool after remaining stagnant during the winter months can quickly clear your water and boost your sanitization.

Clorox® Pool&Spa™ Shock Plus™

Clorox® Pool&Spa™ Shock Xtra Blue™

Algaecide

Green water and algae are common problems pool owners experience when opening their swimming pool. Apply a multi-functional algaecide that kills and prevents green, mustard, and black pool algae.

Clorox® Pool&Spa™ Algaecide Xtra Blue™

Clorox® Pool&Spa™ Green Algae Eliminator

Water Testing

Now is an excellent time to stock up on your water testing supplies. Pool water test strips make testing a breeze.

Use the free Clorox® Pool app to scan or manually enter your strip results and receive expert water analysis.

Alternatively, you can use the Clorox liquid water test kit with reagent solutions and enter your results into the app.

Clorox® Pool&Spa™ My Pool Care Assistant™ 6-Way Test Strip

Chlorinating Tablets

Chlorine is critical to sanitizing your pool and keeping your water clean and clear for swimmers. Applying chlorinating tablets weekly is a simple way to maintain a clean pool.
