

BUILT TO LAUNDROMAT STANDARDS FOR HOMES THAT FEEL LIKE LAUNDROMATS.

These machines are built on a specialized production line dedicated to building commercial washers and dryers. They provide the durability of a laundromat right in a home's laundry room. Busy families can count on them to keep running and running load after load.

WHY'S THE LID OFF CENTER?

Because the coin box goes here when this model is used in a laundromat.

WHAT DOES DEEP WATER WASH DO?

It uses the right amount of water for deep cleaning power in even the toughest loads.

HOW'S A DUAL-ACTION AGITATOR DIFFERENT?

It creates really fast rollover, aka it gets clothes seriously clean in shorter cycle times.

WHAT ELSE MAKES IT COMMERCIAL-GRADE?

-  Rugged 1/2 horsepower motor
-  Quad-gear transmission
-  7-rib belt drive

WHY ARE THE KNOBS SO SIMPLE?

Because starting a dryer shouldn't be as complicated as launching a moon rocket.

WHAT'S THE BENEFIT OF GALVANIZED STEEL PANELS?

They stand up to years and years of use, providing families with worry-free durability.

IS FOUR-ROLLER SUSPENSION REALLY NECESSARY?

Yes. It handles large loads without all the annoying squeaks and squeals.

WHAT ELSE IS INSIDE?

-  Commercial-grade motor
-  Premium drive system
-  IntelliDry® sensor monitors
