

# STA-BIL®

## Start! Your Engines!

**FIXES  
NON-RUNNING  
ENGINES**

FOR FUEL  
RELATED  
ISSUES

Treats up  
to 1 gallon

**DANGER:** EXTREMELY FLAMMABLE, HARMFUL  
OR FATAL IF SWALLOWED, VAPORS HARMFUL & FLAMMABLE,  
SKIN AND EYE IRRITANT. Read cautions on back panel.

**Net Weight 2 OZ.  
(56.7 grams)**

**DIRECTIONS: WARNING:** Aerosol product dispenses from the top of the valve, turn can upside down and aim valve into fuel tank to dispense the product. Do not use near fire, flames, sparks or any sources of ignition (No Smoking). Use in well ventilated area.

**For step-by-step instructions, peel back label**

Check to be sure fuel line and filters are clean and not plugged and fuel can flow. Check spark plug for deposits and clean or replace if required. Check fuel level in gas tank, add gasoline or OEM approved blend of 2-cycle oil and fresh gasoline, as needed, to assure sufficient gasoline to start engine. Invert the aerosol can upside down, press on the valve side and aim into the fuel tank (Do not spray product into the air or your face). The can will empty in ~30-60 seconds. Use of unmixed gasoline in a 2-cycle engine can cause engine failure and should never be attempted. Start per the OEM equipment manual recommended starting procedure. If engine does not start a mechanical repair may be required.

**WARNING:** Cancer & Reproductive Harm -  
[www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

**DANGER:** Contains methyl tert butyl ether, xylene and isopropanol. **EXTREMELY FLAMMABLE.** NFPA 30B level 3 aerosol.

Do not use near fire, flame, sparks, or any sources of ignition. Danger of explosion - do not let can touch battery, battery terminal or other sources of electrical current. Do not spray while starting engine, conditions may exist for sparking, fire and explosion. Do not store at temperatures above 120 F. Intentional misuse by deliberately concentrating and inhaling contents may be HARMFUL or FATAL.
