URBAN WALKING & TREKKING

no-slip  
EVA  
covered  
handgrip  
(feels great  
and  
absorbs  
sweat  
better  
than cork)

grip any-  
where on  
the foam  
covered  
upper  
post

strong,  
light-  
weight  
aluminum  
core

extends  
from  
cane  
height to  
56 inches  
(the trekker  
at right is  
6'3" tall)

One-of-a-kind  
articulating  
Cyclone Foot™  
flexes for  
mobility,  
agility, and  
reliability

# Balance & control.

- Handgrip is covered with sweat-absorbing EVA foam
- Waterproof, all-terrain tread channels away water like a race car tire

Lightweight.  
Adjustable.  
Fits anyone!

Cane height: 33.8 inches

Walking stick: whatever is comfortable!

Trekking pole: up to 56 inches

Mobility  
& traction.

## Cyclone Foot™

- Articulates for reliable, “grippy” traction on virtually any terrain
- Waterproof all-weather, all-terrain tread channels away water like a race car tire

WILLIAM SCOTT, PRIMESTICK INVENTOR

Incredibly  
versatile.
