DRILL POWERED/MANUAL
SIDEWIND A-FRAME
TURBO JACK

2000 LB. DRILL POWERED/
MANUAL SIDEWIND A-FRAME TURBO JACK

This 2000 lb. sidewind turbo jack uses a power drill or manual crank to raise and lower your A-frame trailer.

FEATURES:

- Compatible with your power drill to speed up extension and retraction of your jack with a 3/4" socket head (drill and socket head not included).
- Operates with manual crank or power drill
- Made with sidewind design for easy cranking and avoids any interference with other objects.
- Sleek corrosion resistant black powder coating finish
- Fits most lightweight A-frame trailers
