 **A×8**

# 4

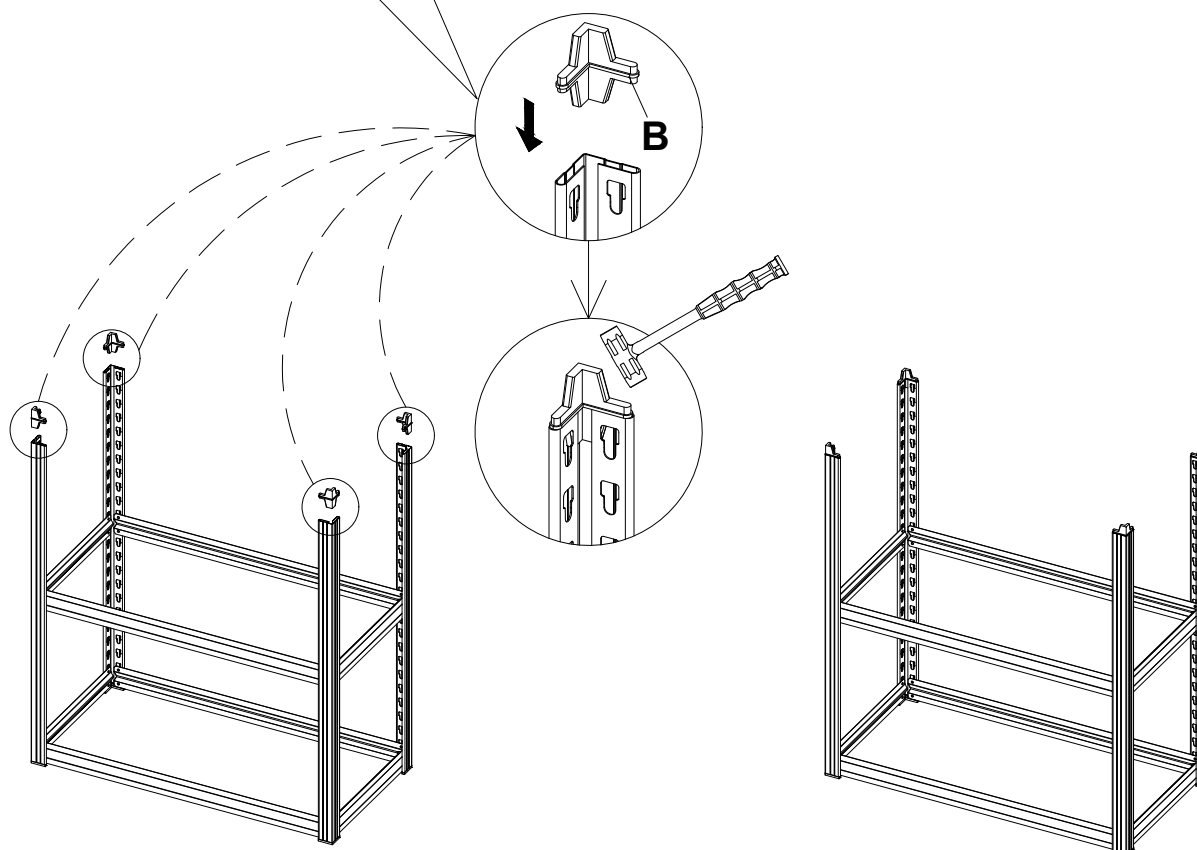

Using a small hammer, tap the flat side of part #2 (flat side up) so that the circular slot in part #2 is completely inside the hoist hole in part #4 (as shown), and note that the hoist hole in part #4 has the large opening facing up and the small opening facing down.

# 5

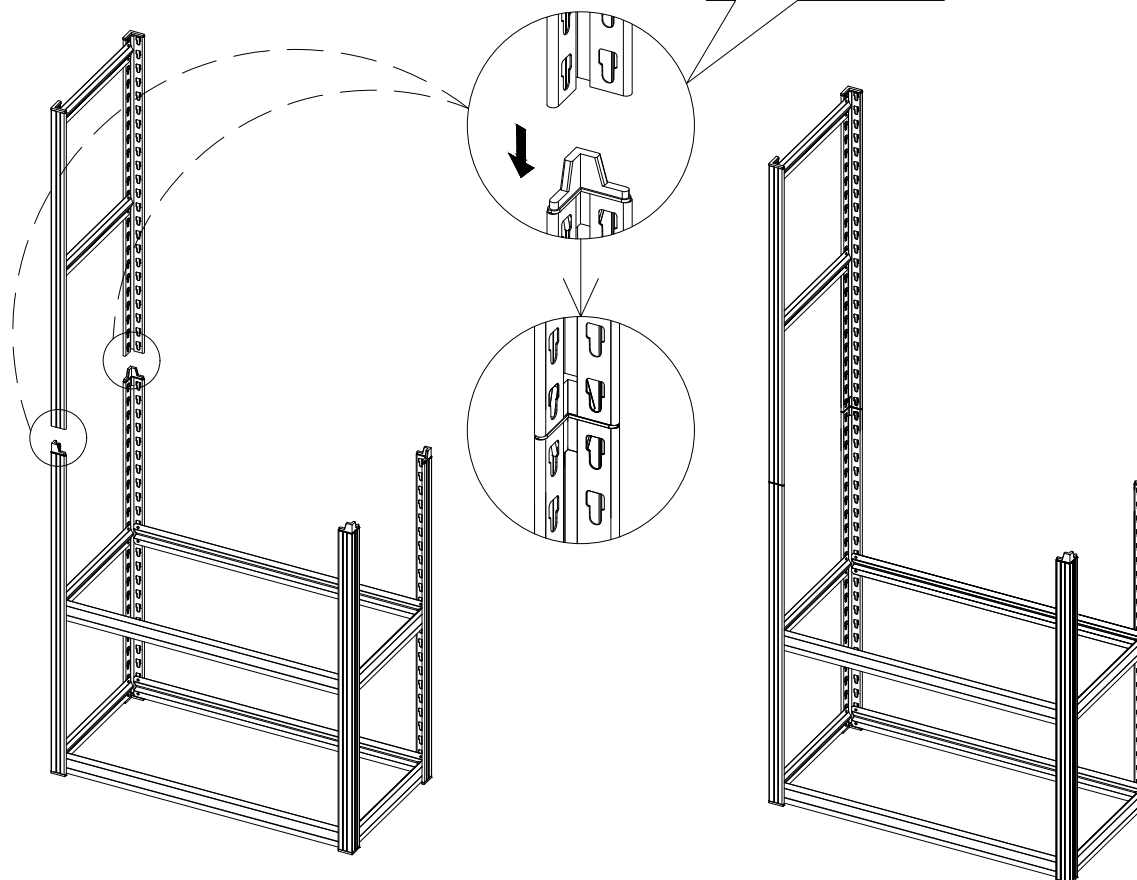

When installing, please use a hammer to hit the flat surface of the connector.

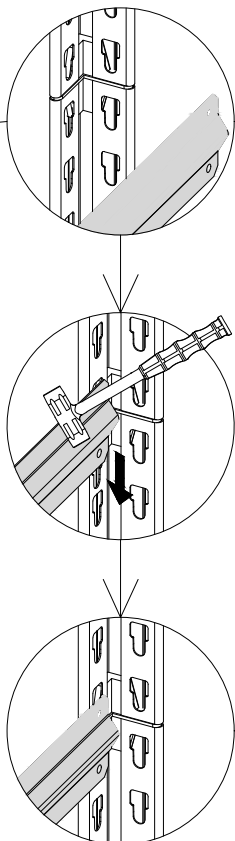

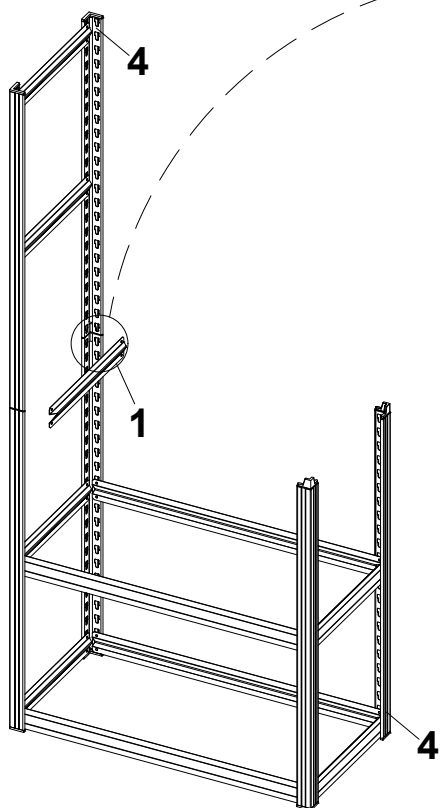

**B×4**

# 6

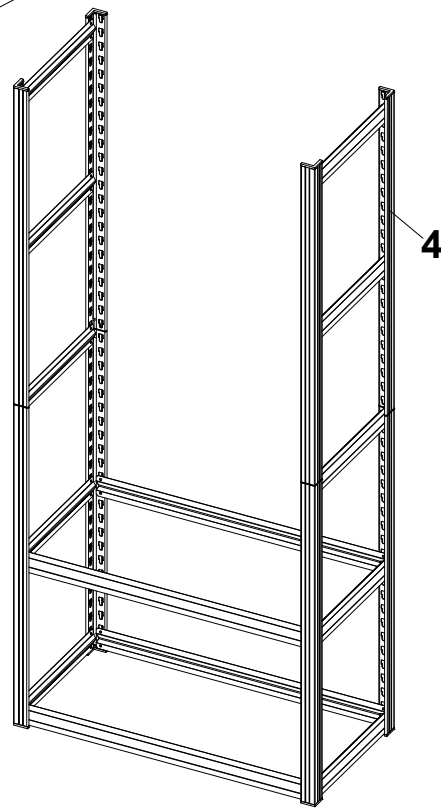

Snap the upper frame into the connector.

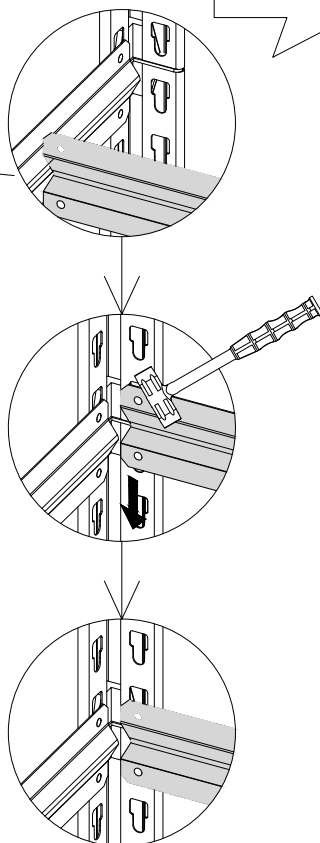

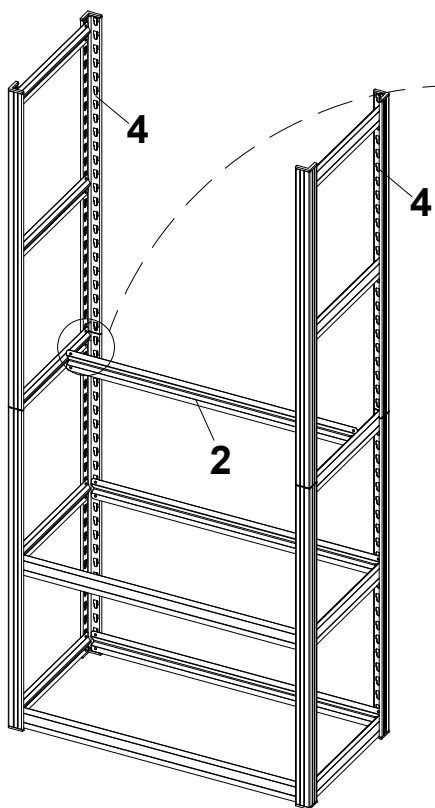

7

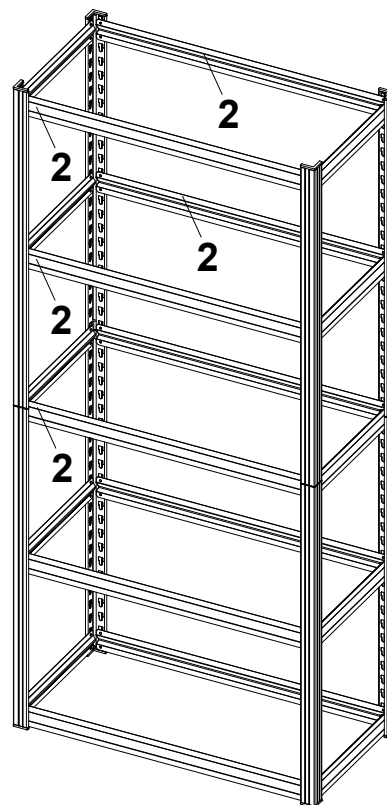

Insert Part #1 into the hoist holes of both the upper Part #4 and lower Part #4.

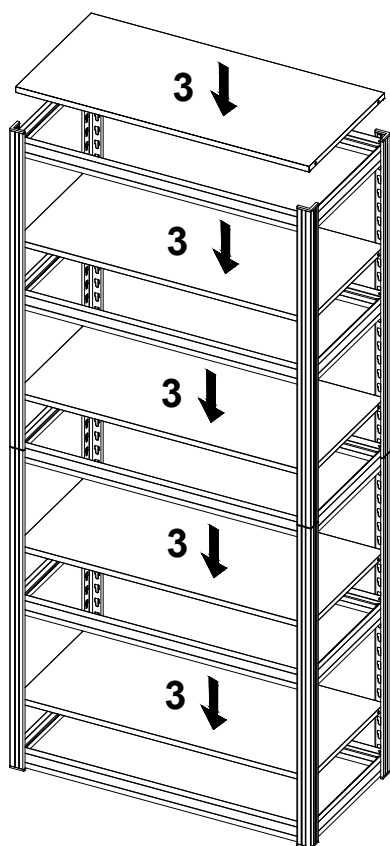

8

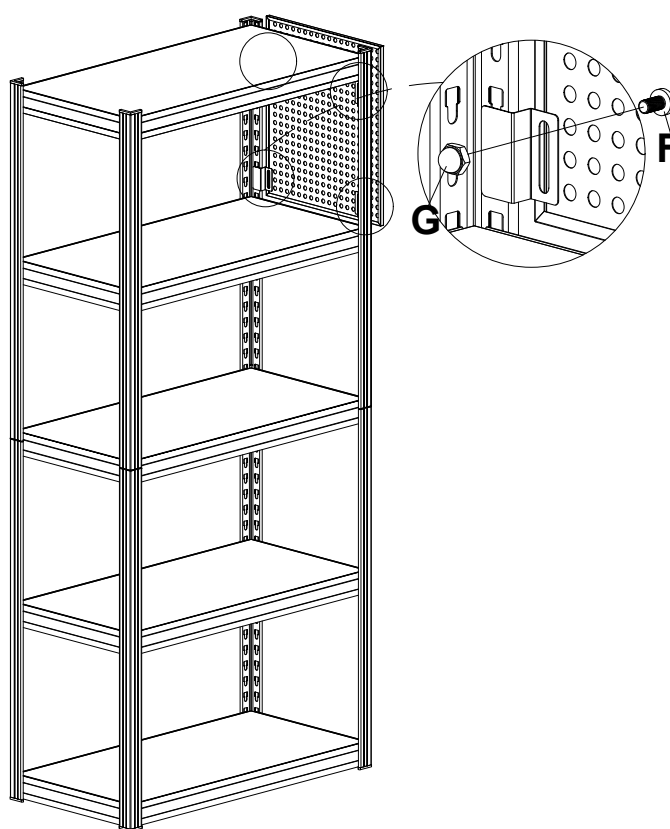

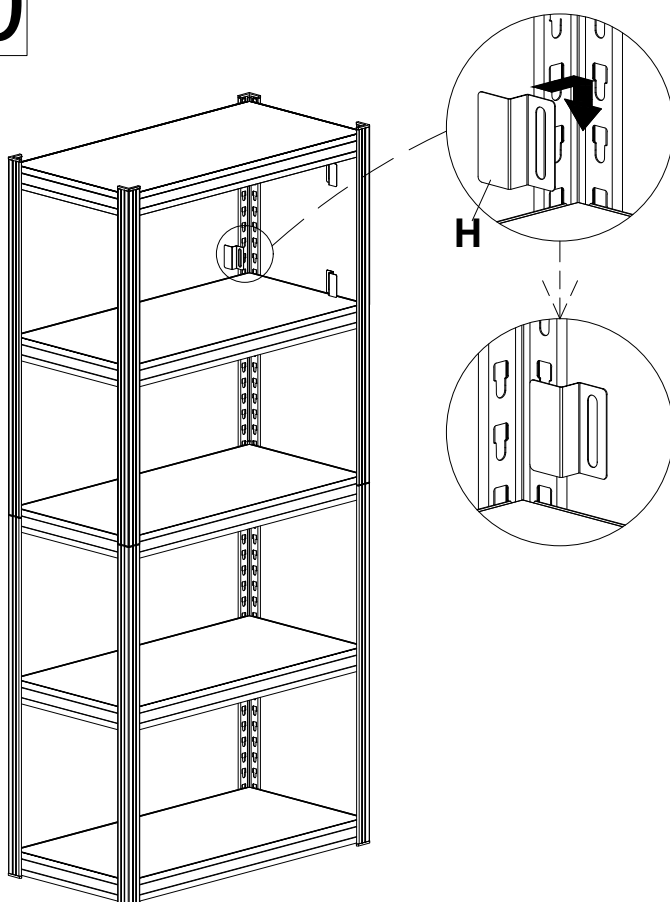

Insert Part #2 into the hoist holes of both the upper Part #4 and lower Part #4.
