

*Van Zyverden's*  
**SEA HOLLY WATER WISE POLLINATOR**

Sea Holly makes for a fascinating choice for the garden. Their leaves and blossoms have a unique look all their own and grow in a range of growing conditions. Their silvery, blue-green stems produce blue cones surrounded by silvery-blue bracts which bloom throughout the summer. These amazing plants are drought and deer tolerant, water wise and attract butterflies like few other plants do. Also, they make for good dried flowers.

---

*Drought tolerant water-wise plant*

*Striking bluish flowers*

*Good choice for containers  
and low to no maintenance*

---
