Use & Care Manual for Fittes Products

- + Review product specifications prior to purchase to ensure proper fit and performance. Visit fittes.com for full details.
- + Wear appropriate protective gear during installation.
- + Follow the official installation guide for your specific product.
- + Confirm correct sizing before installation to ensure a secure and stable fit.
- + Improper sizing may result in movement, reduced performance, or product damage.
- + Ensure the product is securely installed to prevent shifting, lifting, or improper function.
- + Do not place excessive weight or heavy objects on products unless specified.
- + Use products only as intended and in appropriate environments. Not all products are suitable for high-moisture areas.
- + For airflow-related products: do not fully block openings, as this may impact HVAC system performance. Refer to airflow specifications for guidance.
- + Please refer to our warranty for further information.
