

Kräus[®]

INSTALLATION MANUAL

All-In-One Kitchen Set

KCA-1200

Congratulations on the purchase of your new Kraus® plumbing fixture!

Please keep the box and packaging materials until your product is completely installed. If you have any questions, require technical assistance or have any problems with your product:

DO NOT RETURN TO STORE

**Please contact our Customer Service Team
1-800-775-0703 / customerservice@kraususa.com**

Have the model number available and retain a copy of your receipt with purchase date for reference.

If for any reason this product does not meet your expectations, please be sure to repack this product in the original box and packaging material to avoid damage during transit.

Prior to Installation:

- Make sure that you have all necessary parts by checking the parts list. If any part is missing or damaged, please contact Kraus® Customer Service at 800-775-0703 for a replacement
- Inspect the sink prior to installation to make sure that it has not been damaged or during shipping
- Use the cut-out template provided by Kraus
- Observe all plumbing and building codes according to your state requirements
- Turn off the cold and hot water at the angle stops and turn on the old faucet to release and built up pressure
- Flush angle stops to release any debris prior to installation
- Pre-drilled hole size requirement: 1 3/8" (min) - 1 1/2" (max)
- Max countertop thickness: 1 1/2"
- Note: Before installation, please check that the drain kit complies with ASME A112.18.2/CSA B125.2 and with CUPC certification.

For technical assistance or replacement parts, please contact Kraus Customer Service and one of our representatives will be happy to help:

Toll-Free: 800-775-0703 or customerservice@kraususa.com

NOTE: Please reference your batch number when calling, it can be found on the cold waterline.

The step-by-step guidelines in the installation instructions are a general reference for installing a Kraus Sink. Should there be any discrepancies, Kraus cannot be held liable. It is recommended to install all Kraus products by hiring a licensed professional.

Maintenance

Clean your sink on a regular basis with warm soapy water. Rinse the sink after using cleaning products. Wipe the sink surface with a soft cloth to remove any liquid residue. Do not cut food directly on the surface of the sink. Do not leave sharp objects on the surface of the sink for an extended period of time. Do not use abrasive cleaning products, sanding tools, steel wool, or bleaching products

Tools you will need:

| | | | | | |
|---|---|---|---|---|---|
|  |  |  |  |  |  |
| Safety Goggles | Drill | Silicone Adhesive | Jig Saw | Scissors | Cut Resistant Gloves |
|  |  |  |  |  |  |
| Phillips Screwdriver | Tape Measure | Pencil | Screwdriver | Putty Knife | Closed Toe Shoes |

NOTE: Specialized tools may be necessary to install Kraus® Stainless Steel Undermount sinks with countertop materials other than wood, marble or granite.

Make sure to check off that you have all of the following items

- ☐ Kitchen Sink - KBU32
- ☐ Kitchen Faucet - KPF-1610SFS
- ☐ Cut-Out Template
- ☐ Undermounting Hardware
- ☐ Bottom Grid - KBG-32 (2)
- ☐ Drains - ST-1 (2)

Sink Dimensions:

Model #: KBU32
Sink Dimensions: $32 \frac{1}{4}"$ x $18 \frac{7}{8}"$ x 9"
Min Cabinet Size: 36"
Matching Grid: KBG-32 (2)
Drain Model #: ST-1 (2)

1. Determine Reveal Type

Use scissors to cut along the line of the paper template for your desired reveal type (Negative, Positive or Flushed Reveal).

KRAUS® Recommended Installation Type

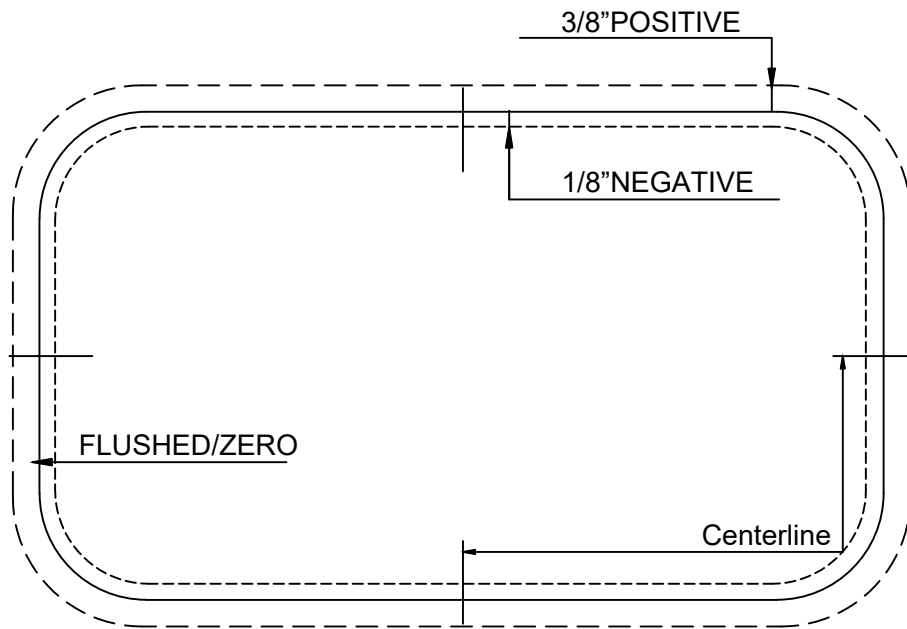

3/8" Positive Reveal

Flushed/Zero Reveal

1/8" Negative Reveal

2. Position Template

- Check the cut-out template against the actual sink to ensure a proper sized cut-out.
- Place the cut-out template in the desired location on the countertop.

NOTE: Make sure clearance is suitable for backsplash, faucet and plumbing for the sink.

3. Trace Template

- Trace template on countertop with a pencil.

4. Cut Countertop

- Cut the opening in the countertop by carefully following the traced line.

⚠ CAUTION - To avoid the risk of personal injury, wear safety glasses and cut resistant gloves with non-slip grip when cutting.

NOTE: Please use the appropriate saw that best fits your countertop material.

5. Set up Mounting Brackets

- Turn countertop over and align sink with countertop. Decide location for mounting brackets.
- Mounting holes should be 1/2" from edge of sink.

6. Drill Hole in Countertop

- Drill 3/8" diameter x 1/2" deep hole in countertop.

! CAUTION - To avoid the risk of personal injury, wear safety glasses and cut resistant gloves with non-slip grip when drilling.

7. Install Anchors

- Insert anchors into drilled holes and lightly tap with a hammer until flush.

8. Secure Sink to Countertop

- Use a bead of silicone (or preferred adhesive) around the rim of the sink. Check the alignment of the sink to the cutout in the countertop. Place sink over cutout hole and press firmly.

9. Attach Mounting Hardware

- Attach mounting hardware to secure bowl. Remove excess sealant from inside lip.
- Allow sealant to set for 30 - 60 minutes.

NOTE: Use acetone or rubbing alcohol to remove any excess sealant.

10. Install Plumbing Fixtures

- Connect drain to sink. Connect trap to drain. Connect water supply connections to faucet according to manufacturer's instructions.
- Run water into sink and check for leaks.

Faucet Diagram and Parts List

- A. Spray Head
- B. Faucet Body

 - C1. Rubber & Metal Washer
 - C2. Mounting Nut
 - C3. Mounting Screws
- D. Quick Connector
- E. Weight
 - E1. Weight Clip
 - E2. Weight
- F. 2.5mm Hex Wrench

Faucet Dimensions:

Installer Tip:

Shut off main water supply before installing new faucet.

Step 1. Remove mounting hardware

Shut off the water supply. Remove the old faucet. Clean the mounting surface. Remove mounting hardware (C) from faucet body (B).

Step 2. Installing the faucet assembly

Optional No Escutcheon Installation. Insert faucet body through the hole in the sink.

Step 3. Securing the faucet assembly

Install the rubber washer and metal washer (C1) onto the threaded mounting shank.

Thread the nut (C2) onto the mounting shank. Lock the nut (C2) into position by tightening the screws (C3). Do not overtighten.

Step 4. Securing the faucet assembly

Push the quick connector (D) firmly upward and attach it to the receiving block (1). Pull down moderately to ensure the connection has been made.

Step 5. Securing the faucet assembly

Install the weight clip (E1) at the point of the hose marking "weight here". Insert the weight (E2) onto the clip (E1) by sliding it down onto the clip (E1).

Step 6. Making the waterline connections

Thread the nut (1) on the supply line onto the outlet of the water supply valve and tighten with a wrench. Do not overtighten.

Step 7. Flushing and checking for leaks

Pull the hose assembly out of the spout and remove the spray head by unscrewing it from the hose in a counterclockwise direction. Be sure to hold the end of the hose down into the sink and turn the faucet on to the warm position where it mixes hot and cold water. Flush the water lines for one minute. This flushes away any debris that could cause damage to internal parts. Check for leaks. Re-tighten any connections if necessary, but do not overtighten. Reinstall the spray head by hand tightening it back onto the spray hose. After installation is completed, turn on the hot and cold water supplies. Check for leaks.

Troubleshooting

If you have followed the instructions carefully and your faucet still does not work properly, take the following corrective steps:

| PROBLEM | CAUSE | ACTION |
|--|--|---|
| Leakage under faucet handle | Bonnet nut has come loose | Remove the cover button. Loosen set screw with hex wrench. Remove the handle. Unscrew cap. Tighten bonnet nut with an adjustable wrench. |
| The aerator has an irregular or reduced water flow | The aerator is dirty or mis-fitted | Remove the aerator and check for debris. Ensure that the rubber washer is properly installed. |
| The water pressure is low. | The connector underneath the deck is clogged with debris The aerator is clogged | Turn off the water supply and disconnect the connector / aerator. Unscrew the connector / aerator and clean under running water. Screw the connector / aerator back. Test water flow. If water pressure is still low then replace the connector / aerator. |
| There is a low flow of water. | The screen filter in the hose connectors is dirty. | Turn off the water supply at water valve and unscrew the hose connectors from water supply lines. Clean the screen in the water lines with hot water, removing any debris or calcium build up. |

Care & Maintenance

To keep the product clean & shining, follow the steps below:

1. Rinse with clean water & dry with a soft cloth
2. Do not clean with soaps, acid, polish, abrasives or harsh cleaners
3. Do not use cloth with a coarse surface
4. Unscrew the aerator and clean when necessary

This installation manual is subject to change without further notice.

Codes/Standards Applicable

Kitchen Sink - Lifetime Limited Warranty

Kraus® USA Plumbing, LLC ("Kraus") extends this warranty to the original purchaser for personal household use of the Kitchen Sink when purchased from a Kraus authorized dealer and in the location of original installation. This warranty is non-transferable.

Kraus warrants the structure and finish of the Kitchen Sink to be free from defects in material and workmanship under normal usage for as long as the original purchaser resides in the residence in which the sink was Kitchen Sink was first installed.

Any product reported to the authorized dealer or to Kraus as being defective within the warranty period will be repaired or replaced with a product of equal value at the option of Kraus.

Commercial Warranty

Kraus USA Plumbing, LLC ("Kraus") warrants its Products for a period of one (1) year to commercial purchasers of Products used in industrial, commercial and business applications.

Care and Cleaning Instructions

Certain cleaning products may cause damage to a Product's finish and use of the following on the Product will void this warranty:

- Abrasive cleaners such as powders, bleach, ammonia, alcohol or chlorine
- Abrasive pads, steel wool or wire brushes

What is Not Covered

This warranty does not cover Products that were discontinued when purchased or display Products, whether such Products were purchased at discount outlets, unauthorized dealers, and/or sold on clearance. This warranty does not cover any free gifts included with purchase.

This warranty does not cover damage resulting from neglect, misuse (including use for an unintended application), abuse, carelessness, accident, hard water or mineral deposits, exposure to corrosive materials, improper maintenance, alteration of the Product, or failure to follow care, cleaning or installation instructions enclosed with your Product. Kraus recommends that all Kraus Products be installed by a fully licensed and insured trade professional with experience in the installation of bathroom and/or kitchen manufactured goods.
