

Thank You

for bringing me home!

Spruce Me Up

I've been in a dark box traveling. Here are some quick tips to get me settled:

- Remove yellow leaves or broked stems.
- If my soil is dry, give me a drink of water.
- Set me in the right light.

PLANT CARE

Dieffenbachia

Light

I like bright, indirect light where I cast a strong shadow at least a couple of hours a day, but don't mind medium light.

Water

I don't want my roots to stay wet, so let the top inch or two of the potting soil dry before you water me again.

Food

I don't need a lot of fertilizer, so you can feed me once or twice in spring and/or summer. You can feed me more often if you want me to grow faster.

Features

I'm a tried-and-true houseplant that purifies the air and has variegated foliage.

Growing tips

If I start to get too tall, you can pinch off the top 2-3 inches of my growth and I'll grow bushier. Repot me every year or two, as my roots fill at least 75% of the pot.

Give me friends! I play well with:

Pothos, Dracaena, Philodendron

This plant may have some natural degree of toxicity and may cause discomfort or illness if ingested. Additionally, exposure to the sap of this plant may cause discomfort to individuals with a sensitivity to it upon contact. Grown for ornamental purposes and not intended for human or animal consumption. Learn more at costafarms.com/plantwarnings.
