

KEY FEATURES

- Includes 1" x 34" straps with zinc plated hardware
- Includes 2 blue straps per package
- Steel construction with nylon webbing
- Prevents lateral and vertical movement
- Adjustable buckle
- Product weight: 1 lbs.

The Extension Ladder and Hoist Track Anchor by Tie Down Safety helps improve job site safety by securing both extension ladders and the Tranzporter platform hoist track sections to the roof. This hoist safety stand prevents both extension ladders and track sections from lateral or vertical movement. The rolled edge anchor plate attaches underneath the shingle tabs with 10D common nails or 3 in deck screws. Improve extension ladder safety with this OSHA compliant anchor.
