Pre-treat with Minwax® Pre-Stain Wood Conditioner

Pre-treating is your insurance against streaks or blotchiness. Choose oil-based conditioner for oil stains and water-based conditioner for water stains.

Tratamiento previo con el acondicionador previo al tinte para madera Minwax®

El tratamiento previo es su seguro contra rayas o manchas. Elija acondicionador a base de aceite para tintes al aceite y acondicionador a base de agua para tintes al agua.

Choose color with wood in mind

Wood's natural color affects final stain color so always test stain in a hidden spot.

Escoja el color con la madera en ment

El color natural de la madera afecta al color del tinte final, así que siempre pruebe el tinte en un lugar oculto.

TINTABLE STAINS

MANCHAS QUE SE PUEDEN TEÑIR

Wood Finish™ Color Series Premium Oil-Based Stain

- Complete projects up to 2x faster*
- Exceptionally even one-coat coverage lets you get more done
- Ideal for furniture, floors, doors, trim and molding
- Available in 240+ colors

Tinte a base de aceite premium de la serie de color Wood Finish™

- Complete proyectos hasta 2 veces más rápido*
- La cobertura de una capa excepcionalmente uniforme permite hacer mucho más
- Ideal para muebles, pisos, puertas, cortes y molduras
- Disponible en más de 240 colores

Wood Finish Water-Based Color Stains

- Semi-transparent color showcases wood grain. Solid color shows more color, less grain.
- One-coat color dries in 1 hour
- 5x thicker for easy application**
- Perfect for small projects, cabinets, doors and trim
- Available in 240+ colors

Tintes con colores a base de agua Wood Finish

- La opción de color semitransparente destaca las vetas de la madera. El color sólido muestra más color, menos vetas.
- El color de una capa se seca en 1 hora
- 5 veces más grueso para una fácil aplicación**
- Es perfecto para proyectos pequeños, gabinetes, puertas y molduras
- Disponible en más de 240 colores

STAINS

TINTES

Wood Finish Oil-Based Penetrating Stain

- Deeply penetrating color that enhances wood's beauty in one coat
- Resists lapping for even color
- Dries in 2 hours***
- Use on bare or stripped wood
- Perfect for any size project including furniture, cabinets, doors, trim and floors
- Available in 30+ ready-to-go colors

Gel Stain

- Rich, uniform color that won't drip
- Perfect for vertical surfaces
- Ideal for wood, metal, fiberglass and more
- Available in 10 colors

Tinte en gel

- Color intenso y uniforme que no gotea
- Perfecto para superficies verticales
- Ideal para madera, metal, fibra de vidrio y mucho más
- Disponible en 10 colores

PolyShades®

Stain + Poly in One Step

- Rich stain color plus tough protective topcoat
- Apply to bare or already-finished wood
- Available in 9 colors
- Choose Satin or Gloss sheen

PolyShades® Tinte + poliéster en un solo paso

- Color de tinte intenso y capa de epoxi resistente
- Aplicar a la madera desnuda o ya acabada
- Disponible en 9 colores
- Elija un lustre satinado o brillante

*Compared to Wood Finish Oil-Based Penetrating Stain

**When compared to traditional oil-based stains

***Unless otherwise noted on label

*Comparado con el tinte penetrante a base de aceite Wood Finish

**En comparación con los tintes tradicionales a base de aceite

***Salvo que se indique lo contrario en la etiqueta

The colors shown are for reference purposes only. They have been reproduced using digital production techniques. Always test stain on a hidden area of the wood to verify desired color. Wood species will impact final color. Color will also vary slightly by product technology/type.

Los colores que se muestran son solo como referencia. Han sido reproducidos utilizando técnicas de producción digital. Siempre pruebe el tinte en una parte fuera de la vista de la madera para controlar si el tinte es del color deseado. Los distintos tipos de madera afectarán el color final. El color también variará ligeramente según la tecnología y el tipo de producto.
