See website for detailed warranty information.

## Available Color/Finishes

*Color tiles intended for reference only.*

Color	Code	Description
	SAA	Satin Anodized Aluminum

## Technical Information

All product dimensions are nominal.

## Notes

Install this product according to the installation guide.

When determining the height of the medicine cabinet, ensure the mirrored door will clear all obstacles (such as a faucet). A minimum distance of 3" (76 mm) is required.

To find the combined roughing-in width for joined cabinets, add the roughing-in width for each cabinet and add 1" (25 mm) for each ganging kit.

Secure the screws (provided) to a stud to avoid possible property and product damage. If this is not possible, anchors (not provided) must be inserted before installing the screws.

Roughing-in opening for recess-mount installations: 23-3/8" (594 mm) x 35-3/8" (899 mm) x 4" (102 mm).
