

USER MANUAL

POOL PILLOW

Preface

We thank you for your trust in our product and request that you read this manual carefully to ensure its full performance.

If you have any questions not covered in this guide, please reach out to our after-sales team via the platform where you made your purchase. We apologize for any inconvenience and appreciate your understanding.

Safety Instructions for Pool Pillow

- For outdoor use only!
- Exclusively for private residential areas!
- ADULTS ONLY! ⚠️ Not suitable for children. Not a toy!
- Do not drag over hard, rough, or sharp objects/surfaces!

Danger: Damage causes air leakage!

- Inadequate maintenance may create hazards!

Requirement: Clean after use + allow to dry completely

- This product is not a lifesaving device and does not provide protection against drowning.

Damage resulting from failure to follow these instructions voids the warranty.

Product Description

This product offers a safer and more convenient solution for winter pool freeze protection. It helps protect your pool from ice damage, extending the life of both the pool and its cover, while preventing water from pooling on the pool cover — so your pool can make it through the winter safely.

Features

Constructed with **0.4 mm** (27-gauge) cold-resistant PVC and **double-sealing technology**, and equipped with a one-way airtight **Boston valve** to ensure years of reliable use. The cold-resistant material withstands temperatures as low as -10°F (-25°C) and resists deterioration from snow, ice, and strong winds.

Product Dimensions by Model

IMPORTANT SAFETY NOTICE

Only parts specified for your exact model are included. Do not use incompatible parts. If any components are missing or damaged, contact our customer service immediately.

Model	RE4×8	R6×6	R8×8	R10×10
Shape	Rectangular	Round	Round	Round
Uninflated Dimensions (Flat)	4' × 8'	6' × 6'	8' × 8'	10' × 10'
Inflated Dimensions (Recommended Pressure)	7'3"×3'8"×2'9"	4'11"×4'11"×3'1"	6'7"×6'7"×4'5"	8'1"×8'1"×5'1"
Heavy-Duty Nylon Ropes (5mm dia. x 20ft)	4	4	4	6
Self-Adhesive Repair Patches	4	4	4	4

NOTES:

1. Specified components correspond to each product variant. Verify packaging for your specific model.
2. A tolerance of $\pm 5\%$ is normal due to temperature and inflation variations.
3. ♻️ Recycling code: 03 (PVC).

Directions for Use

1. Inflate the pool pillow to approximately the recommended dimensions. **Do not overinflate.** Sufficient internal air space must be left to absorb pressure from ice expansion.
2. Tie the heavy-duty nylon ropes through the reinforced grommets. Place the pool pillow in the center of the pool, then tie the opposite ends of the ropes to the pool side walls.
3. Place your pool cover over the top of the inflated pool pillow.

Important Note: Internal air pressure may vary with temperature fluctuations. Add or release air as needed to maintain optimal tension on your pool cover (**not included**).

Repair

1. Cut the vinyl patch to match the size of the hole.
2. Thoroughly clean the damaged area and let it dry for approximately 10 minutes.
3. Press the vinyl patch firmly onto the hole or depression.
4. Wait 20 minutes before re-inflating the product.

Storage Instructions

- Store the pool pillow dry and clean to prevent contamination.
- Avoid direct sunlight whenever possible. During storage, ensure the pool pillow is protected from weather elements and other damage.
