**Color Palette** (For latest color information, visit www.lutron.com)**Product Family Features**

- High-tech "Smart Dimmer" with microprocessor technology for a standard designer wallplate opening
- Special Features!
 - Two taps on the switch brings lights on to full brightness
 - Press and hold the switch to set the delay before the lights go off
- LEDs indicate light level and glow softly as a locator light in the dark
- Multi-location dimming from up to 10 locations
- Uses standard single-pole and 3-way wiring for easy installation

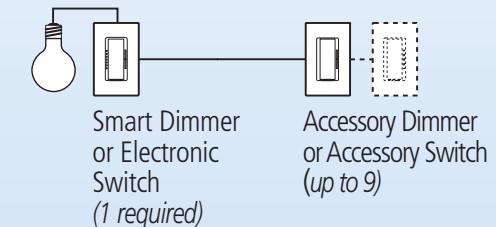

Specification Features

(See Performance Specifications, pg.XX)

- Power-failure memory
- Line frequency compensation
- Electrostatic discharge protection
- Captive tapswitch and rocker
- Front accessible service switch (FASS™) to disconnect load power
- Includes radio frequency interference suppression circuitry
- Precise color consistency
- UV stable color

Smart Dimmers (cont.)			
Magnetic Low Voltage			
<i>Preset Smart Dimmers</i>			
Single Pole/ Multi-Location	600VA (450W)	MALV-600-  MSCLV-600M- 	Color Palette <i>Gloss Finish</i> Add color suffix to model # Example: MALV-600-WH WH White IV Ivory AL Almond LA Light Almond GR Gray BR Brown BL Black <i>Colors meet NEMA color standards where standards exist</i>
Single Pole/ Multi-Location	1000VA (800W)	MALV-1000-  MSCLV-1000M- 	
<i>Products Above:</i> For multi-location dimming, use one Maestro Smart Dimmer with up to nine Maestro accessory dimmers, MA-R-, below. Not for use with mechanical 3-way or 4-way switches. Wattage indicates maximum lamp load, see Dimming Basics, pg.XX. Minimum load on dimmer is 40W. Derating required if ganged, pg.XX.			
Fluorescent			
For control of fluorescent loads, use Lutron Hi-lume®, Compact SE™, Eco-10™ line-voltage, or Tu-Wire® electronic dimming ballasts with MA-600- and Hi-Power 2·4·6 dimming modules, pg.XX. For a coordinated look, consider using Spacer System™ dimmers for controlling fluorescent loads, pg.XX.			
Accessories and Wallplates			
Coordinating designer accessories and wallplates sold separately, pg.XX.			
*Maximum Capacities			
For capacities in multigang installations, see ganging and derating information, pg.XX.			
Controls are 120V 60Hz unless noted.			
   Global Ordering see pg.XX			
For More Information: www.lutron.com/maestro Fax-on-Demand 1-800-523-9466			
Hi-Power 2·4·6™ Dimming Modules			
To increase load capacity up to 30,000W/VA in most popular sources, use one MA-600- and add up to five dimming modules. See pg.XX for information.			

Description	Maximum Capacity*	Model #	Important Information
Accessory Dimmers			
Provide Multi-Location Dimming from up to Nine Additional Locations.			
<i>Smart Remotes</i>		MA-R-  MSC-AD- 	
For multi-location dimming, use up to nine accessory dimmers with only one of the following Maestro multi-location dimmers: MA-600-, MA-1000-, MALV-600-, MALV-1000-, or MAELV-600-. <i>Product Above:</i> Not for use with mechanical 3-way or 4-way switches. Maximum traveller wiring run for multi-location applications is 250' (76.2m). No derating required if ganged.			
Electronic Switches			
Incandescent, Electronic Low Voltage, Magnetic Low Voltage, Non-Dim Fluorescent Ballasts, and General Purpose Fans			
<i>Switches</i>			
Multi-Location	8A light or 3A fan	MA-S8AM-  MSC-S8AM- 	
<i>Product Above:</i> For multi-location switching, use one Maestro multi-location switch with Maestro accessory switches, MA-AS-, see below. Requires neutral wire connection. Do not use with mechanical 3-way or 4-way switches. Minimum load is 5W. Derating required if ganged, pg.XX.			
Accessory Switches			
Provide Multi-Location Switching from up to Nine Additional Locations.			
<i>Accessory Switches</i>		MA-AS-  MSC-AS- 	
For multi-location switching, use up to nine Maestro accessory switches with only one Maestro multi-location switch: MA-S8AM-. <i>Product Above:</i> Not for use with mechanical 3-way or 4-way switches. Maximum traveller wiring run for multi-location applications is 250' (76.2m). No derating required if ganged.			
Controls are 120V 60Hz unless noted.

The Designer Dimmer that
Matches Your Paddle Switches

Color Palette (For latest color information, visit www.lutron.com)

Product Family Features

- Large paddle switch with a captive linear-slide dimmer for a standard designer wallplate opening
- Full family of products for most lighting sources
- Preset dimmer
- Dimmers feature built-in soft-glow nightlight
- Uses standard single-pole and 3-way wiring for easy installation

Specification Features

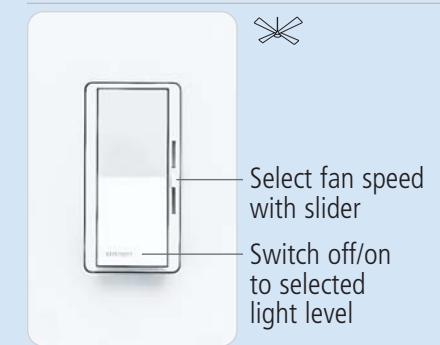

(See Performance Specifications, pg.XX)

- Electrostatic discharge protection
- Captive paddle switch and linear slider
- Square law dimming
- Mechanical air-gap switch to disconnect load power
- Includes radio frequency interference suppression circuitry
- Power-failure memory
- Precise color consistency
- UV stable color
