

# **Cat Tree**

## **Assembly Instructions**

Model:HFMS-170

# **Product Information**

Product Name: Multi-Layer Cat Tree

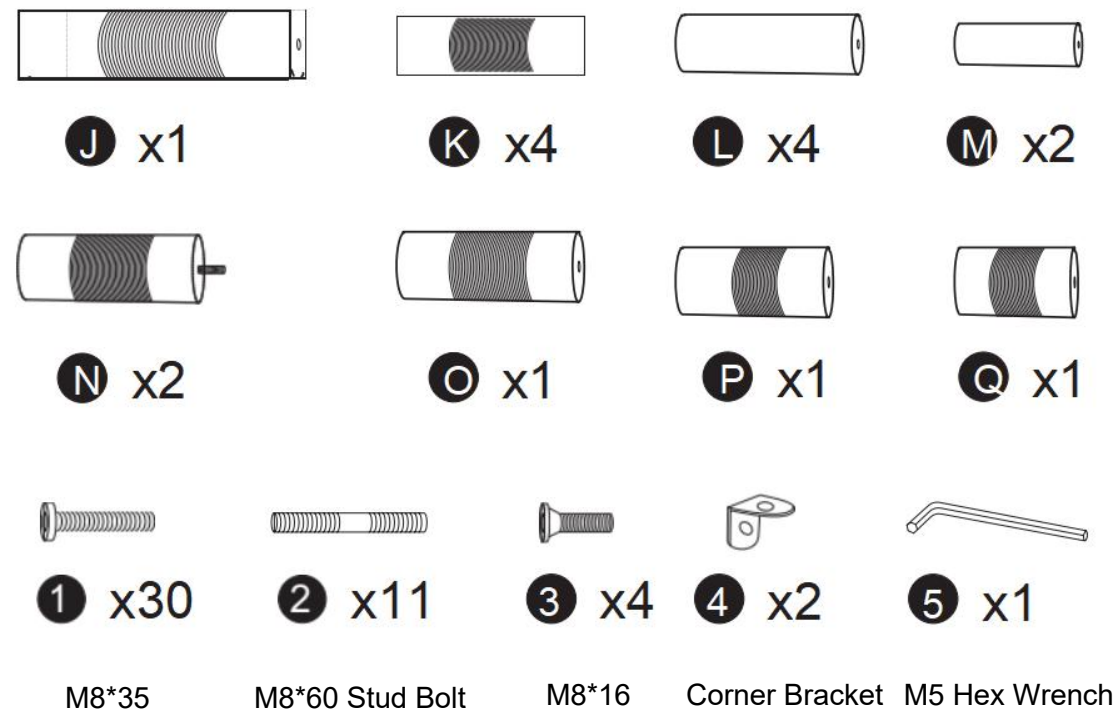

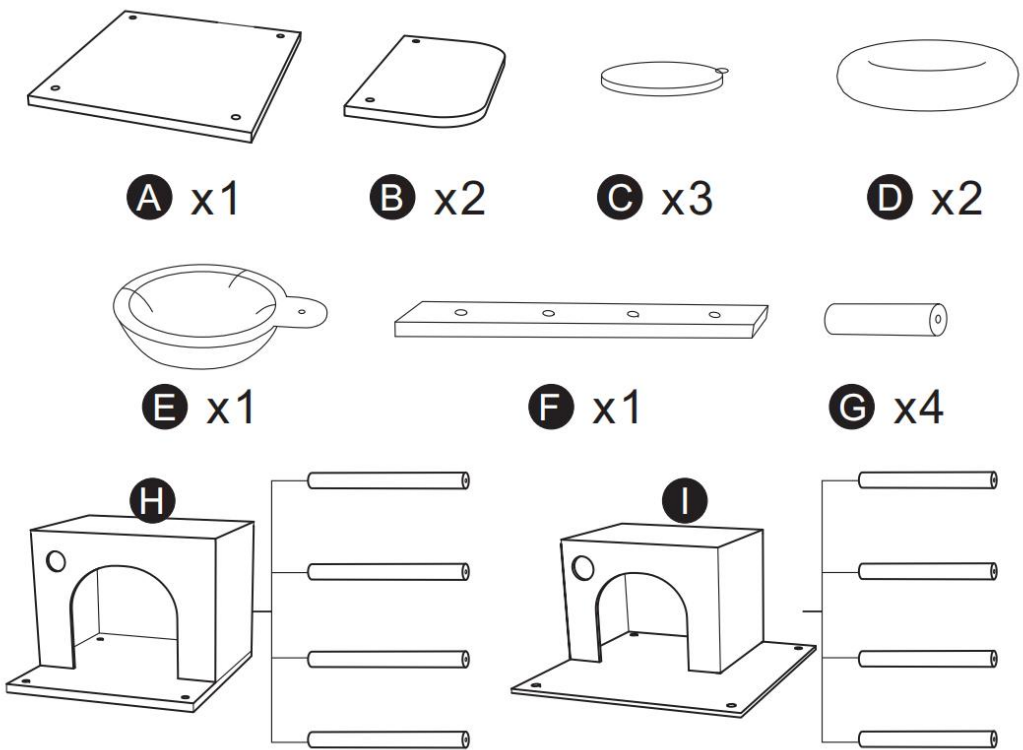

Model No.: HFMS-170

Main Material: High-Density Particleboard, Natural Sisal Rope, Non-Toxic Plush Fabric

## **Product Overview**

Specially designed for European and American markets, this cat tree features a high-density particleboard structure that ensures exceptional sturdiness and load-bearing capacity. Equipped with natural sisal scratching posts and soft plush platforms, it provides a comfortable space for resting and playing. This design satisfies your cat's natural instincts to climb, scratch, and perch, while effectively protecting your furniture from damage. Crafted entirely from non-toxic, eco-friendly materials, the product strictly meets international safety standards for pet supplies.

# Component List

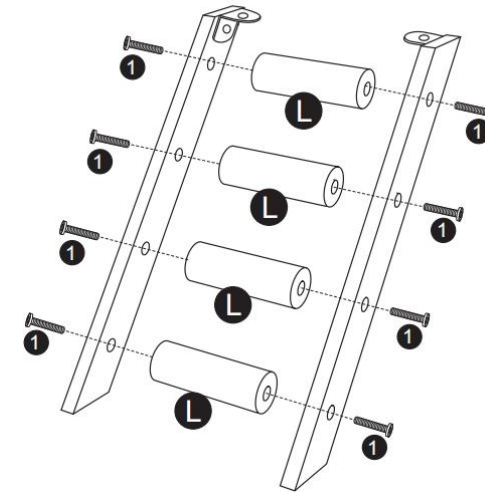

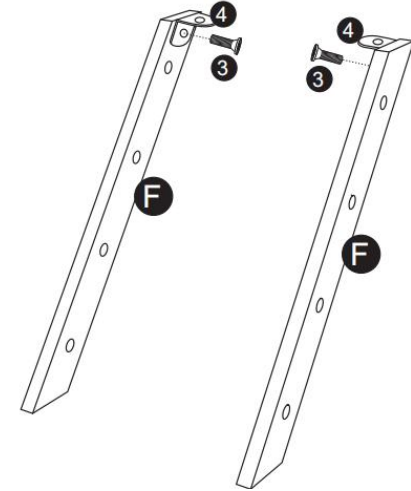

# Installation Instructions

## Step 1:

Locate part F. Secure and fasten it with fasteners #3 and #4 per the diagram.

Then locate part L, fasten it with fastener #1 per the diagram.

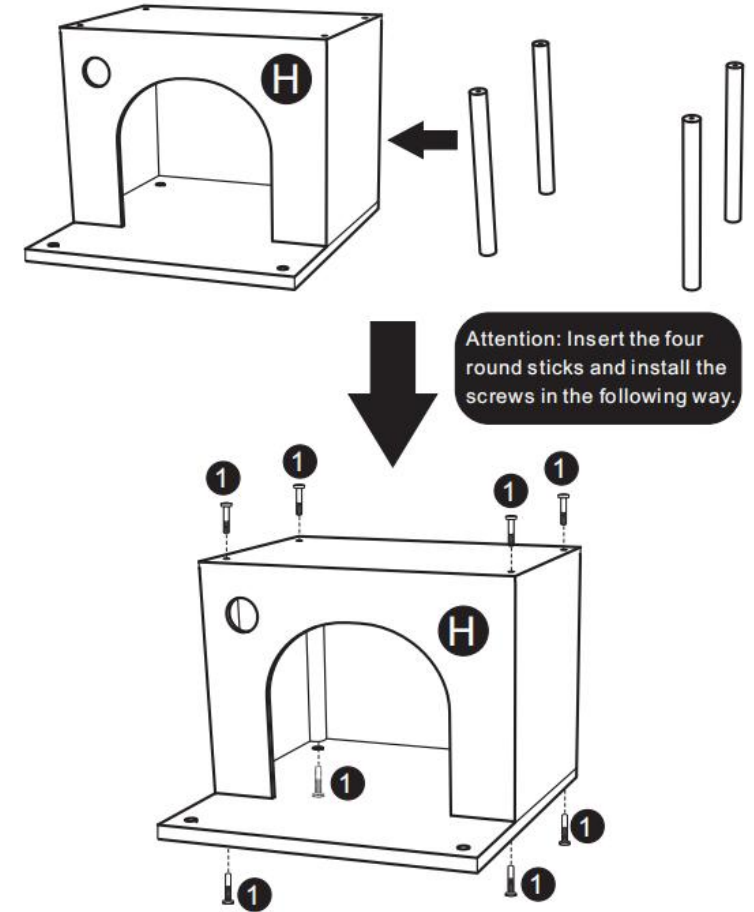

# Installation Instructions

## Step 2:

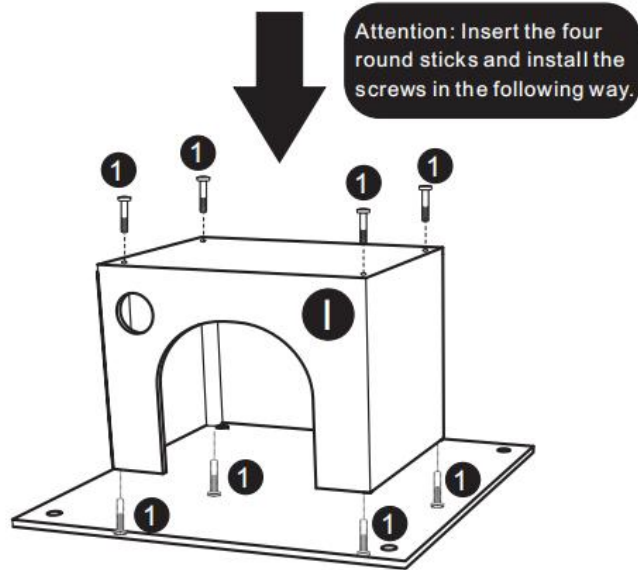

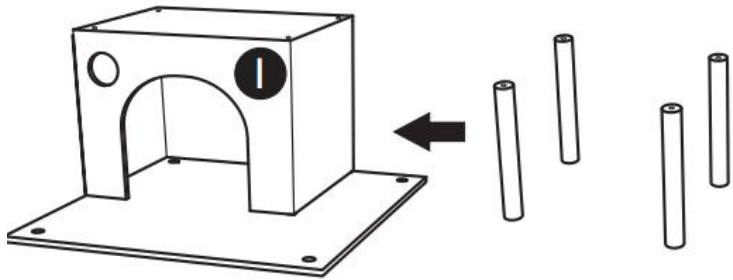

Locate part H.

Insert the pillars into part H for support, and secure them with fastener #1 to ensure the sides of part H are fully supported.

\*Note: Insert 4 round sticks before tightening all fasteners.

# Installation Instructions

## Step 3:

Locate part I.

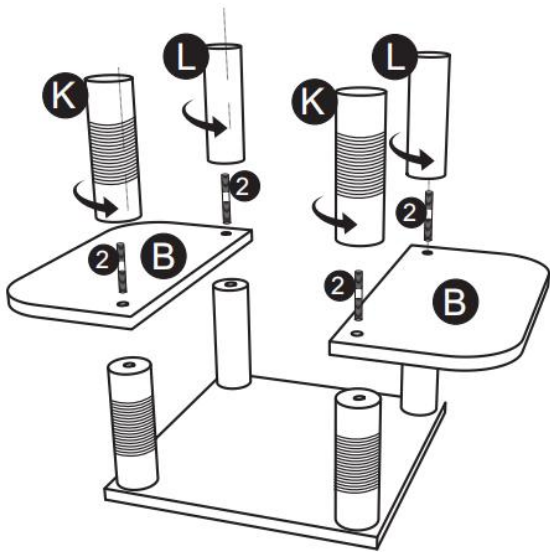

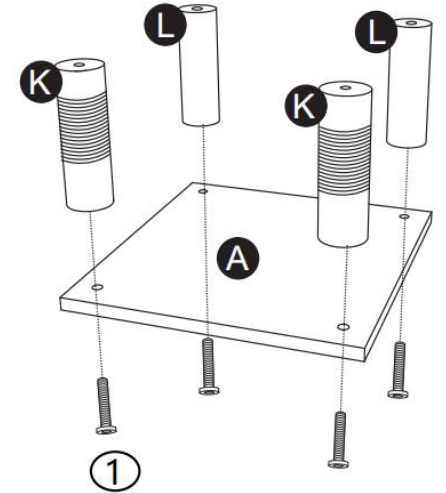

Insert the pillars into part H for support, and secure them with fastener #1 to ensure the sides of part H are fully supported.

\*Note: Insert 4 round sticks before tightening all fasteners.

# Installation Instructions

## Step 4:

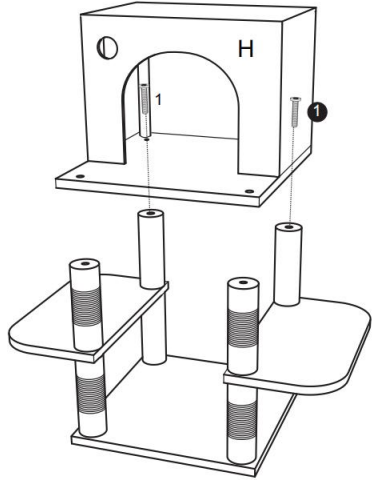

Locate accessories A, K and L, and install them using screw No.1 as shown in the figure.

## Step 5:

Then locate board B together with accessories K and L, and install them using No.2 double-ended screws as shown in the figure.

# Installation Instructions

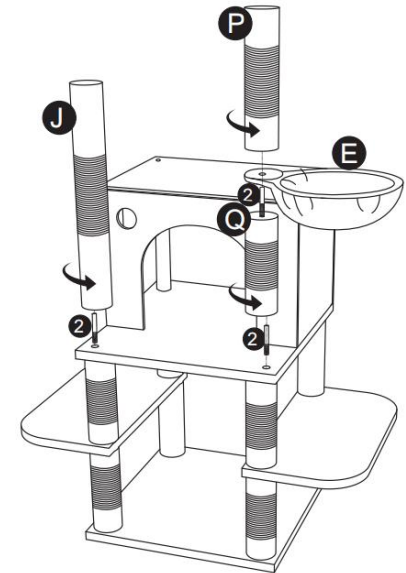

## Step 6:

Take the cat bed assembled in Step 3, and tighten it with screw No.1 as shown in the figure.

## Step 7:

Locate accessories J, Q, P and E, and install and tighten them using No.2 screw as shown in the figure.

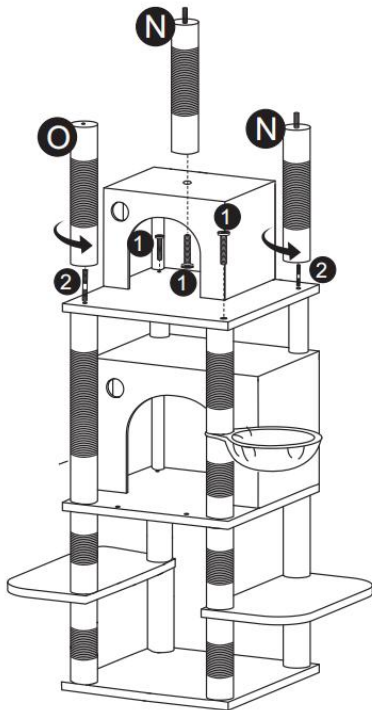

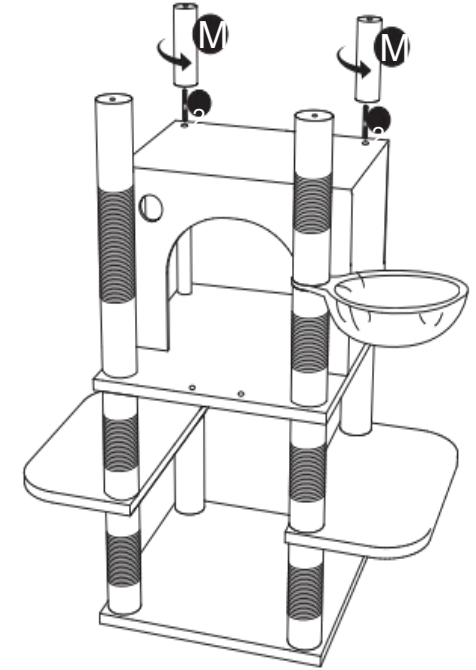

# Installation Instructions

## Step 8:

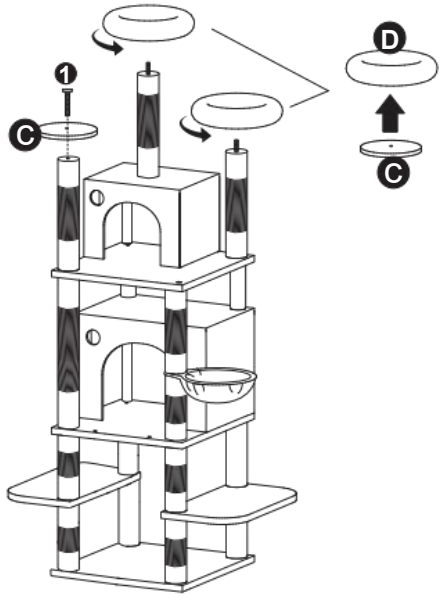

Locate accessory M and tighten it using No.2 screw as shown in the figure.

## Step 9:

Locate accessories O and N, and tighten them using No.2 screw. Then secure the designated positions in order with No.1 screw as shown in the figure.

# Installation Instructions

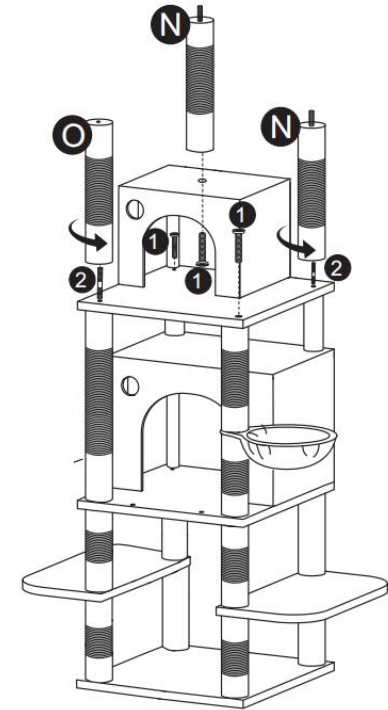

## Step 10:

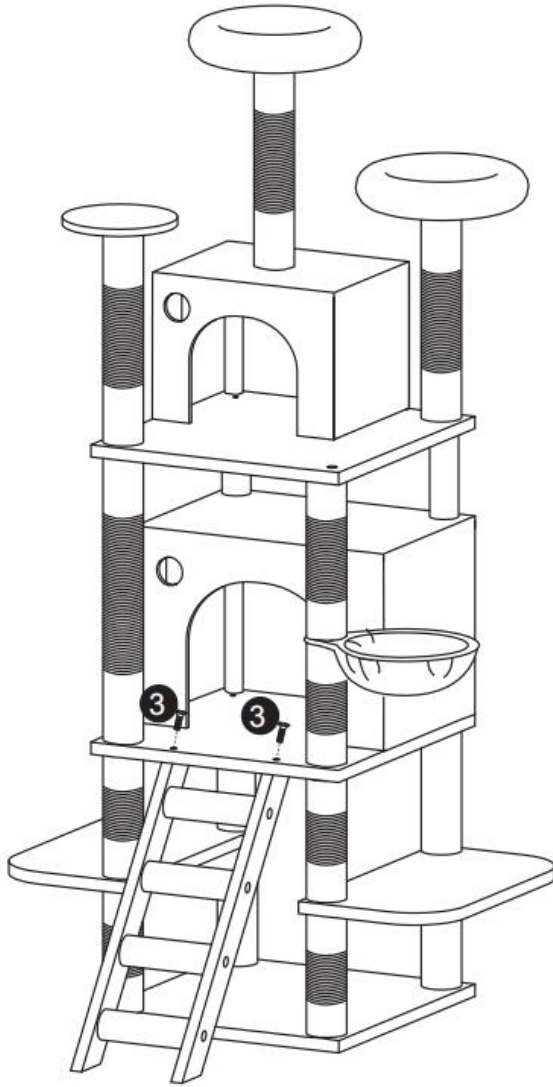

Locate the two sets of accessories C and D, install and tighten them. Then secure with No.1 screw as shown in the figure.

## Step 11:

Locate accessories O and N, and tighten them using No.2 screw. Then secure the designated positions in order with No.1 screw as shown in the figure.

# Installation Instructions

## Step 12:

Retighten the pre-installed ladder fixed with fastener #3 per the diagram.

The assembly is now complete.
