GENERATION LIGHTING

Portable

GENERAL PRODUCT INFORMATION:

This product is safety listed for dry locations only.

This instruction shows a typical installation.

IMPORTANT SAFETY INSTRUCTIONS

This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not attempt to defeat this safety feature.

SAVE THESE INSTRUCTIONS!

Install the Fixture

IA

- 1 Insert the adapter into the base and secure together using washers and hex nut.
- 2 Assemble the columns by screwing them together, then screw the column assembly onto the adapter.
- 3 Screw the socket assembly onto the column assembly.
- 4 Place the shade over the socket and onto the shade base, then secure the shade to the base using the shade screws.
- 5 Screw the lamp into the socket. Refer to the label on the lamp socket for Max Wattage information.
