1. Assembly Instructions

- Insert **camera** carrier into back of **reservoir.**

- Attach **solar roof** to top of **reservoir** and lock into place using rotating latches. Be sure to align the **solar panel** pin into the **camera carrier.**

- Attach **perch** to **drinking tray** by snapping into place.

- Align notch on back of **drinking tray** to the unlock symbol on the **reservoir.**

- Insert **reservoir** into **drinking tray** and rotate to lock in place.

- Attach **hanger hook** to the top of the **solar roof** (if hanging is desired).

- If mounting using the **L-bracket**, mount the **L-bracket** to a suitable wall, fence, or post. Next, install the **ant moat** attachment. **Note**: Feeder must be mounted LEVEL.

- Insert **camera** into the front of the feeder.

- Mount the hummingbird feeder in your desired location. **Tip**: Don't point it directly south.
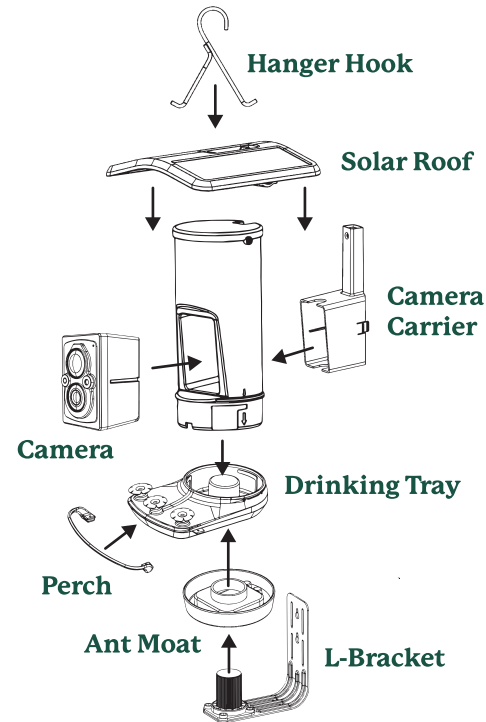

2. Getting Started

- Fully charge battery with included cable until all three green LEDs are lit.

- Insert battery into camera.

3. Create Account

- Follow QR code to create an account.

- Add subscription to store videos, use AI, and build your Bird Book.

4. Add Feeder to App

- Ensure FeatherSnapCam App is downloaded.

- Open the app and log in to your account.

- While on the home screen, click Activate Feeder and follow the onscreen instructions.

5. Feeder Setup

- The camera should now be connected.

- Slide camera into feeder with power button facing up.

- Choose a mounting location.

6. Mounting

- Mount the feeder on a fence, wall, or post with included mounting bracket or hang it using the included hook.

- Fill the ant moat on the roof or bracket to keep pests out of the drinking tray.

- Be sure to install in a sunny place!

7. Nectar Guide

- Fill the reservoir with nectar.

- While still inverted, attach the drinking tray to the reservoir and lock into place.

- Turn feeder right side up and hang or mount using the included bracket.

FeatherSnap

Quick Start Guide - Filling and Cleaning

NEED MORE HELP? Our team of experts are here for you! Simply reach out to our customer service team via chat, phone (+1-218-282-7121) or email (support@feathersnapcam.com). Additional information can also be found on our website at www.feathersnapcam.com

FILLING YOUR FEEDER

1. Remove the camera before filling.
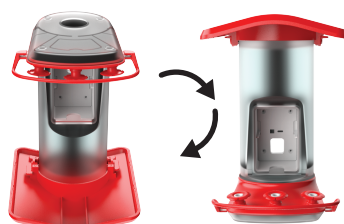

2. Remove the drinking tray from the nectar reservoir.

3. Flip the reservoir upside down and fill it with nectar (up to 1 liter).

4. Reattach the drinking tray to the reservoir.

5. Be careful! Some nectar may spill so do this quickly.

CLEANING YOUR FEEDER

1. Clean after every refill. Use hot water, and if needed, a bit of mild dish soap.

2. The nectar reservoir and drinking tray are dishwasher-safe.

3. The solar roof, camera, and camera carrier should be wiped down with a damp cloth only.

4. Use pipe cleaners to clean the flower ports.
