

Drawer Adjustment Guide - for MAX

**Open the drawer,
there is a lid/cover
on the inside of the drawer.**

Take off the lid/cover,
there is a screw as shown in
the picture.

Adjust the drawer (left/right/up/down)
by adjusting the screws with a screwdriver

Drawer Removal Guide - for MAX

Step#1 Remove the screws at the bottom of each side. The screws are used to lock the drawer and the glides for user's security.

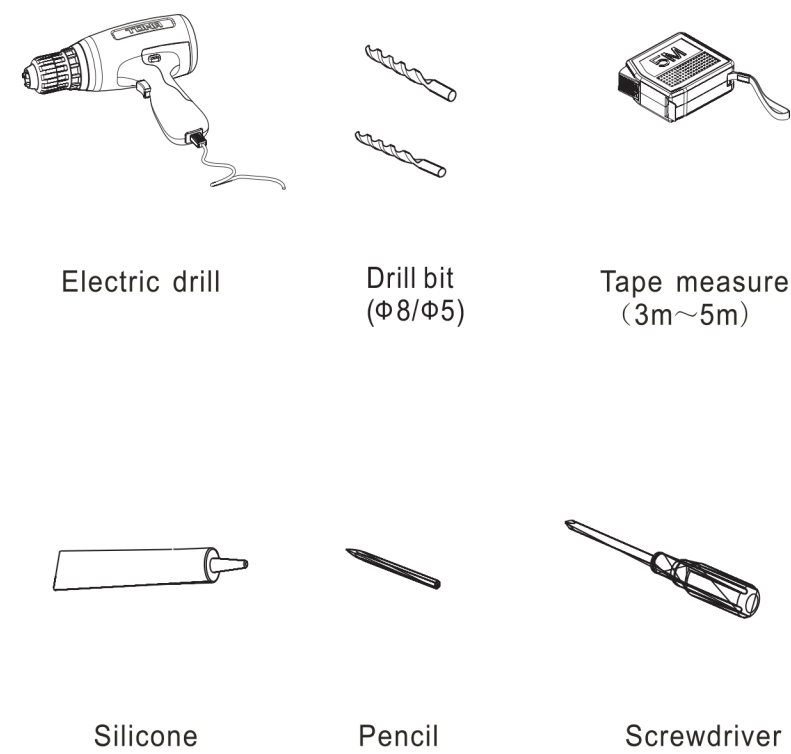

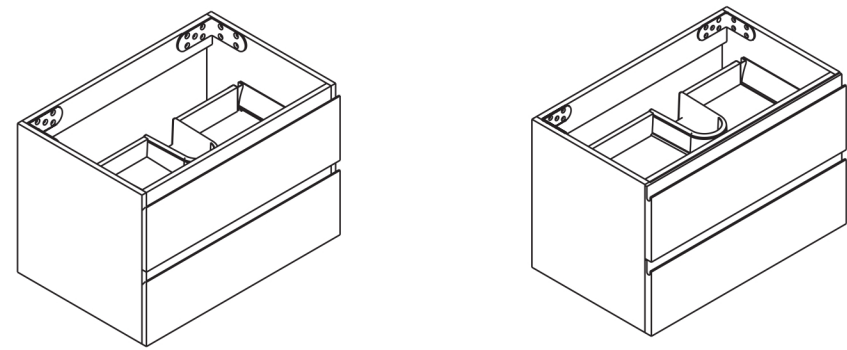

Step#2 Push the metal triggers on each side and take up the drawer a little bit, then you can remove your drawer easily!

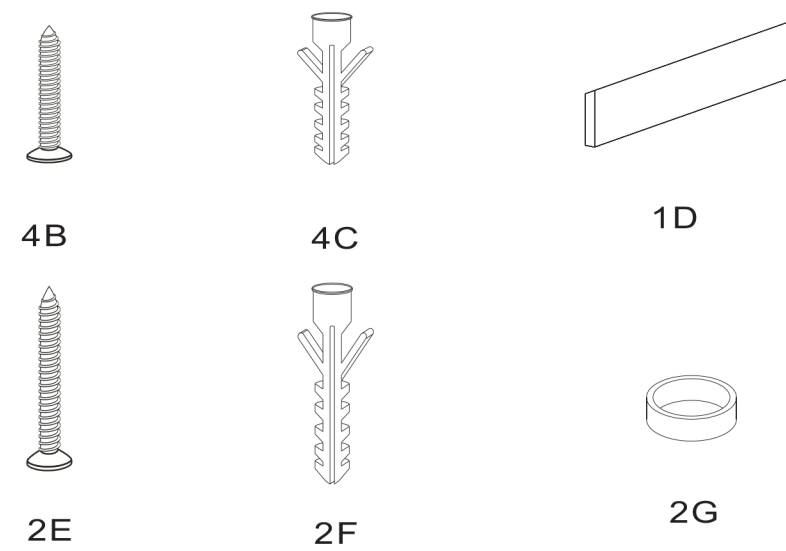

Thanks
