

6' Picnic Table Kit - ASSEMBLY INSTRUCTIONS

PARTS LIST* (Quantities may vary depending on kit).

A 1 – Tabletop	B 4 – Table Legs	C 2 – Bench Supports
D 2 – Bench Seats	E 2 – Diagonal Braces	F 8 – Hex Nuts
		G 8 – Washers
		H 8 – Carriage Bolts
		I 32 – 2-1/2" Screws

*Your kit may include parts with beveled corners and/or preassembled legs.

BEFORE YOU BEGIN

It will take you about 45 minutes to complete.
You'll need **two adults** to safely assemble this picnic table.

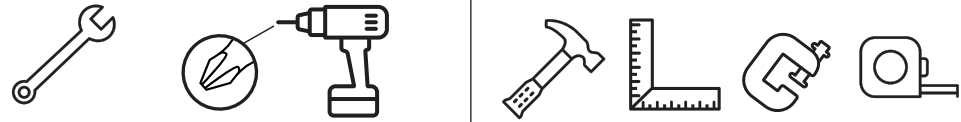

This table is made from construction grade lumber and may contain rough edges. Wear protective gear.

Before beginning assembly, carefully inspect all wood components for the location of any visible blemishes or stamps. To ensure the best appearance of the finished product, position any stamps or blemishes facing downward or on the underside of the table and benches.

TOOLS YOU WILL NEED

1/2" Wrench Power drill with #2 Phillips bit

Recommended:
Hammer, Carpenter's square, Clamp, Tape measure

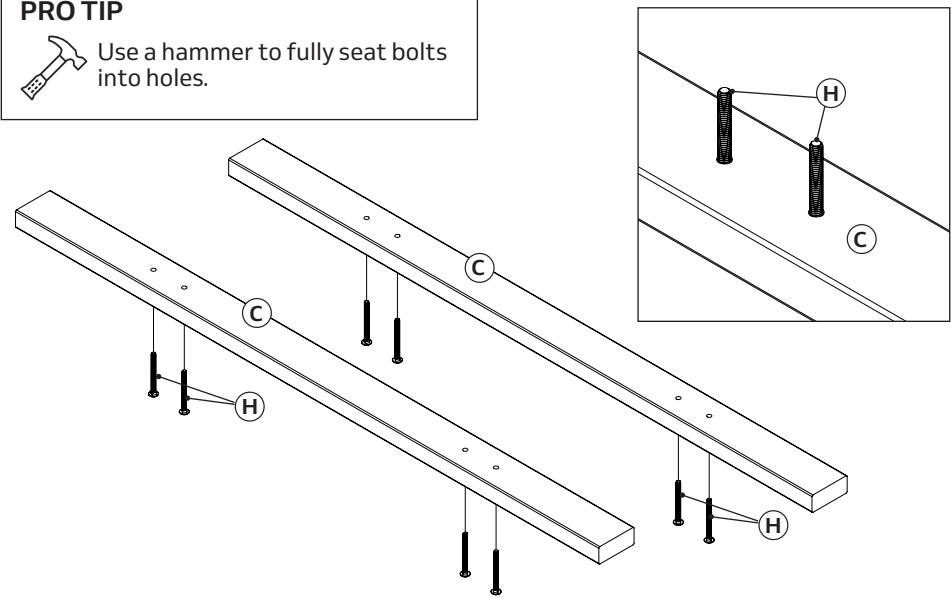

ASSEMBLY

1 Insert bolts into bench supports

If your kit contains preassembled legs, skip to Step 3.

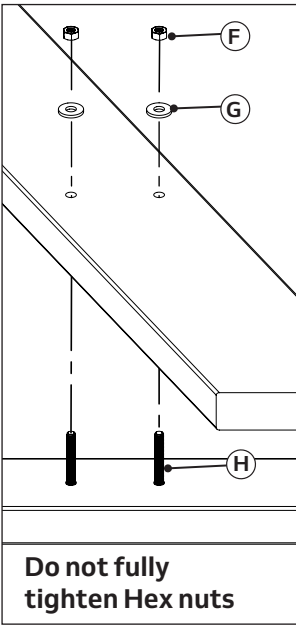

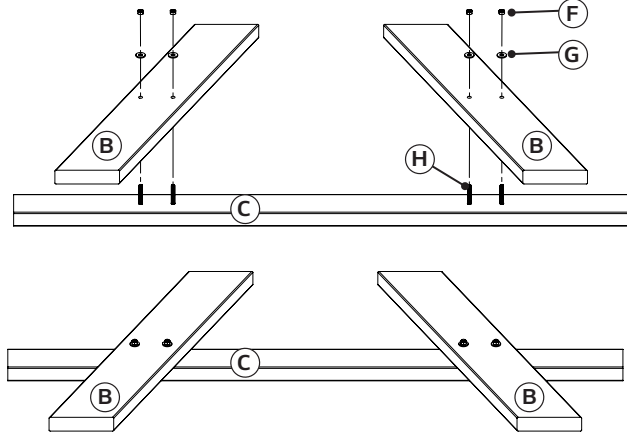

PRO TIP

Use a hammer to fully seat bolts into holes.

2 Attach legs to bench supports*

* If your bench supports have beveled corners, be sure they face downward.

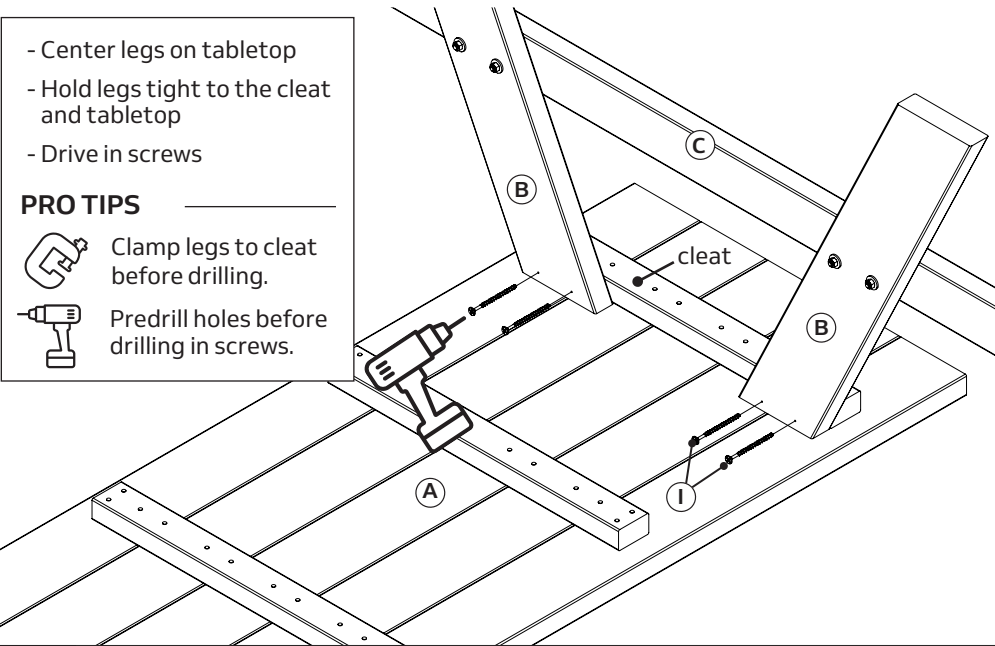

3 Attach legs to tabletop with screws

- Center legs on tabletop
- Hold legs tight to the cleat and tabletop
- Drive in screws

PRO TIPS

- Clamp legs to cleat before drilling.
- Predrill holes before drilling in screws.

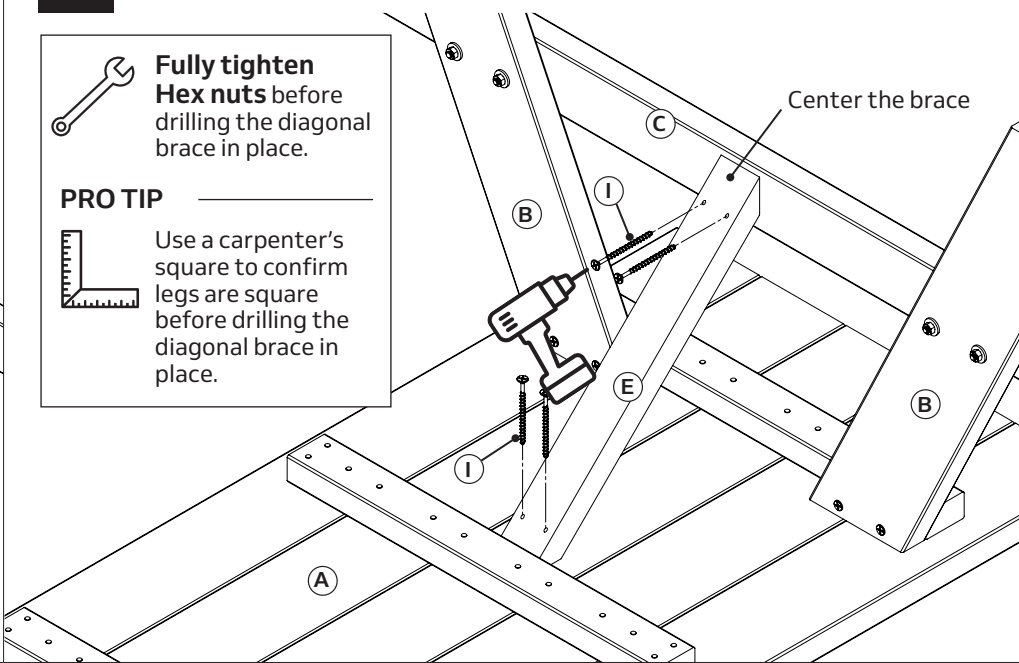

4 Attach diagonal braces with screws

Fully tighten Hex nuts before drilling the diagonal brace in place.

PRO TIP

Use a carpenter's square to confirm legs are square before drilling the diagonal brace in place.

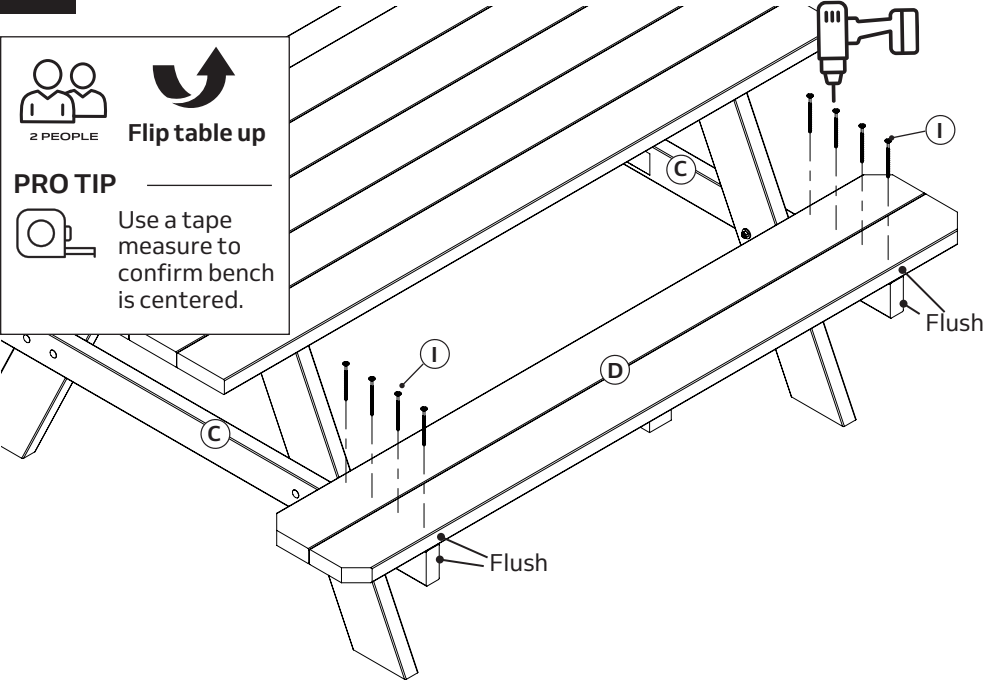

5 Attach bench seats with screws

Flip table up

PRO TIP

Use a tape measure to confirm bench is centered.

CARE & MAINTENANCE

PRO TIPS

Continuous water absorption and water loss in the wood can cause its natural defects to surface. To reduce the appearance of these natural defects and extend the life of your picnic table, apply a protective finish such as a semitransparent stain or waterproofing sealer.

The table has approximately 86 square feet of surface area. Apply the finish following the stain or sealer manufacturer's instructions and reapply every two years as needed.

Mold occurs naturally on wood. If you receive a picnic table with mold on it, you can safely clean it with water and detergent or vinegar.
