Outdoor: Zones 10-11
Indoor: ANY ZONE

Indoor Care Tips

Use a peat and perlite mixture
in a well draining pot. African
Violet mix also is excellent.
Do not mulch.

Outdoor Care Tips

- Plant in well-draining area; in-ground or a planter
- Bring indoors when temp goes below 65° F

Expert Advice

- Loves humidity
- Fertilize during growing season every 2-4 weeks
- Use bottled or filtered water or rain water
