

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

- 1-2 Thread the wire through the ceiling lock, adjust the length of the power cord, and thread the wire through the figure 8 lock. (Anti-pull rendering)
3. Fix the power cord with screws on the lock.
4. Fix the suspension plate to the ceiling with screws.
5. Connect the power cord and grounding wire: black represents the live wire (L), white represents the neutral wire (N), and the exposed copper wire represents the grounding wire (E), and is fixed with a nut.
6. Cover the canopy with the hanging panels.
7. Fix the ceiling to the suspension with screws.
8. Insert the glass cover into the lamp holder.
9. Screw the lampholder ring into the lampholder (secure the glass cover)
10. Screw the bulb into the lamp holder. (Bulb not included)

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
