

2 GREAT CHOICES WITH CLASS 4 PROTECTION

Premium shingle choices to help protect your home when weather hits.

Two options, one level of protection against storms—that’s what Owens Corning offers with two impact resistant shingles, TruDefinition® Duration STORM® and TruDefinition® Duration FLEX®. Through two different technologies both Duration STORM® and Duration FLEX® meet the highest impact rating possible UL 2218 CLASS 4 and offer one important result: help to protect your home from the impact of hail and storm debris along with the outstanding hold of industry-leading SureNail® Technology. Combined with ImpactRidge® Hip & Ridge Shingles, they’re designed to withstand winds – up to 130 miles per hour*.

It’s the beauty and durability you’ve come to depend on from Owens Corning—before, during and after the storm.

TruDefinition® DURATION STORM®

Integrated polymeric backing material allows the shingles to meet one of the industry’s highest ratings for impact resistance. The reinforcing, polymer-based mesh is embedded into the asphalt at the back of the shingle to help prevent damage when impacted by hail or storm debris.

- Shingles feature the advanced performance of patented SureNail® Technology
- Patented WeatherGuard® Technology provides for UL 2218 Class 4 impact resistance
- 7 popular colors with bold, lively contrast and complementing shadow lines for dramatic dimension
- Install ImpactRidge® Hip & Ridge shingles for a complete UL 2218 Class 4 Impact-Resistant Roof System®§
- Limited Lifetime Warranty^{+/‡} (for as long as you own your home) with 130-MPH Wind Resistance Limited Warranty*
- Homeowners may qualify for insurance premium discounts[‡]
- StreakGuard™ Protection with a 10-year Algae Resistance Limited Warranty*

TruDefinition® DURATION FLEX®

Built-in flexibility helps resist cracking and tearing, in all season installation conditions—offering over 10% stronger tear strength than traditional shingles that lay flat faster than standard oxidized shingles too. We integrate SBS polymer into our asphalt to produce a rubberizing effect, creating a shingle that is more flexible and more capable of recovering from hail impact.

- Shingles feature the advanced performance of patented SureNail® Technology
- Uniquely blended SBS modified asphalt provides greater flexibility than standard shingles as well as UL 2218 Class 4 rated impact resistance – the highest impact rating possible
- 9 popular color options ranging from rich and subtle to lively and vibrant
- Install ImpactRidge® Hip & Ridge shingles for a complete UL 2218 Class 4 Impact-Resistant Roof System®§
- Limited Lifetime Warranty^{+/‡} (for as long as you own your home) with 130-MPH Wind Resistance Limited Warranty*
- Homeowners may qualify for insurance premium discounts[‡]
- StreakGuard™ Protection with a 10-year Algae Resistance Limited Warranty*

Don’t let black streaks lower the value or curb appeal of your home.

Owens Corning blends specialized copper-lined granules, developed by 3M, a leading producer of roofing granules, into our colorful shingles. This helps resist blue-green algae growth.

§ ImpactRidge® Hip & Ridge Shingles are required to complete UL 2218 Class 4 Impact-Resistant Roof System.

* See actual warranty for complete details, limitations and requirements.

‡‡ 40-year Limited Warranty on commercial projects.

‡ Homeowners should check with their insurance company to see if they qualify.

For patent information, please visit www.owenscorning.com/patents.

SureNail® Technology is not a guarantee of performance in all weather conditions.

SureNail® Technology is available only on Owens Corning® Duration® Series Shingles.

Shingles are algae resistant to help control growth of algae and discoloration.
