

# TUFF-GUARD®

The Perfect Garden Hose®

Extra Flexible  
Ultra Lightweight  
KINK-FREE Hose

TUFF GUARD® truly is the Perfect Garden Hose®. The unique polypropylene double helix construction makes this the most flexible and only unkinkable garden hose.

The double helix construction also allows the TUFF GUARD® hose to be 35% – 50%

lighter than other garden hoses, flexible and weather resistant from -20°F to 158°F, abrasion and chemical resistant, and crush proof all while retaining its superior durability.

Unlike all other garden hoses, the heavy duty brass ferrules thread onto the outer helix to anchor the couplings making end pull-offs and leaks virtually impossible.

All of these features make this the ideal hose for residential and industrial users. TUFF GUARD® is as suited for washing your car, boat, RV, snowmobile, house or garden watering as it is for wash-down use in industrial plants, rock quarries, cement trucks, landscaping and horse barns.

- KINK-FREE
- Maximum Flow Fittings
- Professional Grade
- Easy Handling
- 35% – 50% Lighter
- Flexible from -20°F to 158°F

## Specifications

| Inside Diameter | Working PSI | PSI Burst | Length |
|-----------------|-------------|-----------|--------|
| 5/8"            | 100         | 300 +     | 25 ft  |
| 5/8"            | 100         | 300 +     | 50 ft  |
| 5/8"            | 100         | 300 +     | 100 ft |

## Application

|             |                        |                          |
