CUSTOMER SERVICE 1 (888) 277-6960 | WWW.DK2.COM

STARTING INSTRUCTIONS

1. Adjust the **Gas Lever** 1 to the far right.
2. Adjust the **Choke Lever** 2 halfway to the right.
3. Turn and pop-up the **Stop Switch** 4 on the feed chute of the machine.
4. Pull the **Engine Cord** 3 to start spinning the drum.
5. Retract the **Engine Cord** 3 and continue to pull the cord repeatedly, continually spinning the drum by following this process 3 or 4 times.
6. Once the engine fires up, adjust the **Choke Lever** 2 to the far right slowly as the engine gains RPM.
