

Van Zyverden's
JUMBO UPRIGHT ELEPHANT EARS

Elephant Ear bulbs are among the most eye catching of the bulbs available for purchase. Not only are they one of the largest flowering bulbs but they are also very versatile and can grow with little sunlight to full shade. Beautiful on their own or planted as a back drop for your favorite blooms, they provide a bold tropical effect in nearly any garden. Grown for only their foliage which are reminiscent of an elephant's ears. Once established they require little to no attention.

Huge, tropical leaves

*Can be grown in full sun,
but prefers partial shade*

*Adapts well to growing
in containers.*

About This Variety: These giant upright Elephant Ears come from the alocasia family and are known for their leaves, which point in an upward direction. This most impressive variety grows somewhat larger than our traditional Elephant Ears. Their leaves are huge, leathery thick, sculpted on rigid stems. These plants will make a passersby stop in their tracks. In native areas, under ideal conditions, the plants have reached 10 feet in height. Easy to grow and magnificent!

Growing Instructions: Plant outdoors only after soil and night temperatures have warmed up above 60°F.

Care Tip: They Love water so much that you can even plant them in ponds. Never let the soil dry out.

Exposure: Full sun to partial shade

Height: Grows 4-6' tall

Spacing: Plant 3-4' apart, 2-3" deep

Hardy in: USDA zones 11-12

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
