workpiece. If the vacuum cleaner or vacuum hose cannot be positioned properly, it should be removed.

4. Turn on vacuum cleaner before router.
5. Empty the vacuum cleaner as necessary.

NOTE: The router comes with a clear plastic removable guard over the cutting area. Do not attempt to plunge cut through the plastic guard. The guard is used to assist the dust collection.

Your router includes a dust extraction cap. Be sure it is in place over the dust extraction port if you are not using a vacuum.

Maintenance

CLEANING & LUBRICATION

Use only mild soap and damp cloth to clean the tool. Never let any liquid get inside the tool; never immerse any part of the tool into a liquid.

NOTE: Use only a DRY cloth to wipe the plunge rods. These rods require no lubrication. Lubricants attract dust, reducing the performance of your tool.

Accessories

Use only accessories that are recommended by the manufacturer for your model. Accessories that may be suitable for one tool, may become hazardous when used on another tool. Recommended accessories for use with your tool are available at extra cost from your local dealer or authorized service center. If you need assistance in locating any accessory for your tool, contact:

DeWALT Industrial Tool Company
626 Hanover Pike, P.O. Box 158
Hampstead, MD. 21074-0158
1-800-4-DEWALT (1-800-433-9258)

CAUTION: The use of any other accessory not recommended for use with this tool could be hazardous.

Important

To assure product SAFETY and RELIABILITY, repairs, maintenance and adjustment should be performed by authorized service centers or other qualified service organizations, always using identical replacement parts

Full Warranty
