Specifications

Power Supply	DC 12V≈1A
Rated Power	12W
Speed setting	3 speeds
Operating Conditions	Temperature: 14°-104°F/-10°-40°C
	Humidity: ≤85% RH
Nosie Level	24dB
Air Purifier Weight	3.3lb/1.5kg
Air Purifier Dimensions	180x181.5x314mm (7.08x7.14x12.36in)
Power Adapter	Input: 100-240V~50/60Hz
	Output: 12V≈1A

What's in the box?

1 * Air Purifier

1 * High efficiency composite filter

1 * User Manual

1 * AC Power Adapter
(In the air purifier)

Safety Information

Safety Instruction

Only use the air purifier as described in this manual.

Do not use the air purifier without removing the plastic wrap from the filter.

If not removed, the air purifier **will not** filter air, and may overheat, causing a fire hazard.

Do not use the air purifier outdoors.

Keep the air purifier **away from** water or wet, damp areas.

Never submerge it in water or liquid.

Do not use the air purifier in excessively humid areas.

Keep the air purifier away from heat sources such as stovetops, ovens, or radiators.

Do not use the air purifier in places where combustible gases, vapors, metallic dust, aerosol(spray) products, or fumes from industrial oil are present.

Keep the air purifier 5ft (1.5m) away from where oxygen is being administered.

Supervise children when they are near the air purifier.

Do not place anything into the openings of the air purifier.

Do not place heavy objects on the air purifier.

Keep the inside of the air purifier dry. To prevent moisture build up, **avoid** placing it in rooms with major temperature changes or underneath air conditioners.

Always unplug the air purifier before servicing (such as changing the filter).

Do not use the air purifier if it is damaged or not functioning well, or if the power cord or plug is damaged.

Do not risk repairing the air purifier by yourself. Contact customer support for assistance.

Not for commercial use. Household use only.

Power Cord & Plug

Place the air purifier near the electrical outlet it is plugged into.

Never place the power cord near any heat sources.

Do not cover the power cord with a rug, carpet, or other covering.

Do not place the cord under furniture or appliances.

Keep the power cord out of areas where people frequently move around.

Place the cord in places where it **will not** be tripped over.

[Figure 1.1]

2. Unscrew the bottom cover counter clockwise and take out the packed filter and power adapter. **[Figure 1.1]**

[Figure 1.2]

3. Remove the plastic package from the filter and place the filter back into the air purifier. **[Figure 1.2]**

[Figure 1.3]

4. Screw the cover clockwise. **[Figure 1.3]**

[Figure 1.4]

5. Insert the power adapter plug into the back of the air purifier. **[Figure 1.4]**

[Figure 1.5]

6. Plug in and tap to turn on the air purifier. **[Figure 1.5]**

[Figure 1.6]

7. During using allow at least 11.8 inches / 30 cm of clearance from the every side of the air purifier. **[Figure 1.6]**

Using Your Air Purifier

On/Off Button

When the machine is powered on for the first time, the power button flashes for 3 seconds and then turns off.

Power On: Lightly press the power button to start the machine. It runs in auto mode, and the ambient light turns on.

Power Off: Lightly press the power button to turn off all functions. All indicator lights and ambient lights will go out. (If the filter replacement indicator light is red, it will not turn off after the machine is powered down.)

Fan Speed Adjustable

3 fan speed adjustable: **I/II/III**.

Gently tap the fan speed button once, and the display screen will show "**I**", the air purifier is operating at low wind speed.

Gently tap the fan speed button twice, and the display screen will show "**II**", the air purifier is operating at medium wind speed.

Gently tap the fan speed button three times, and the display screen will show "**III**", the air purifier is operating at high wind speed.

Auto Mode

Based on the sensor's monitoring of PM2.5 levels in the air, the screen light show different colors to alert users to real-time air quality conditions:

When PM2.5 is between 0–75 $\mu\text{g}/\text{m}^3$, the screen light displays green.

When PM2.5 is between 76–115 $\mu\text{g}/\text{m}^3$, the screen light displays yellow.

When PM2.5 is above 116 $\mu\text{g}/\text{m}^3$, the screen light displays red.

Sleep Mode

When Sleep Mode is active, the air purifier automatically adjusts its fan speed to the lowest setting. All lights on the unit will turn off after 3 seconds, and the Sleep Mode Indicator will dim. (If the filter replacement indicator is red, it will remain on during Sleep Mode.)

When the air purifier is running in Sleep Mode, lightly tap the "⌚" button will exit this mode, and the sleep mode indicator will turn off.

Timer Mode

Tap the Timer Mode Button to set the machine's run timer from 0 to 8 hours. While the timer is active, the Timer Mode Button will light up. Once the timer ends, the machine will automatically power off immediately. To cancel the timer mode, set the timer duration to "0H".

Child Lock Mode

Child Lock ON: Press and hold the timer mode button for more than 3 seconds to activate the child lock mode. When the machine enters child lock mode, the child lock indicator light “” will turn on, and all buttons on the display screen will be locked and inoperable.

Child Lock OFF: While the child lock mode is active, press and hold the timer mode button for more than 3 seconds to deactivate it. The child lock indicator light will then turn off.

Ambient Light Mode

The machine automatically activates the ambient light mode upon startup, ambient lights of the air purifier to cycle through different colors(Blue/Green/Yellow/Red).

Tap the ambient light mode button once to stop the color cycling and display a single steady color.

Tap the ambient light mode button again to turn off the ambient lights.

Filter Replacement

After the machine has operated for 1140 hours, the filter replacement indicator will light up red to remind the user to replace the filter. Once the filter has been replaced, press and hold the ambient light mode button for more than 5 seconds until the filter replacement indicator turns off, and the machine will resume normal operation.

If you need to replace the filter before the filter replacement indicator automatically lights up red, press and hold the ambient light mode button for more than 5 seconds. The filter replacement indicator will then light up red. Proceed with the filter replacement, and after completion, press and hold the ambient light mode button for more than 5 seconds again. The filter replacement indicator will turn off, and the air purifier will resume normal operation.

Note: Once the filter replacement indicator turns red, it will not automatically go off, even if the device is powered off or in sleep mode.

About the Filter

The air purifier uses a 3-stage H14 True HEPA filtration system to purify air. Traps at least 99.99% of airborne particles 0.1 microns in size.

Troubleshooting

Problem	Possible Solution
Air purifier will not turn on or respond to button controls.	- Make sure if the power cord is damaged. - Plug the air purifier into a different outlet. - The air purifier may be malfunctioning. Stop using the air purifier and contact Customer Support. Do not try to repair the air purifier.
Airflow is significantly reduced.	- Ensure there are at least 11.8 inches / 30 cm of clearance on all sides of the air purifier. - The filter may be clogged by large particles such as hair or lint, blocking the air flow. Clean the filter. Replace with a new filter.
Air purifier makes an unusual noise while the fan is on.	- Make sure the filter is properly in place with plastic packaging removed. - Make sure the air purifier is operating on a hard, flat, level surface. - Replace the filter. - The air purifier may be damaged, or a foreign object may be inside. Stop using the air purifier and contact Customer Support. Do not try to repair the air purifier.
Strange smell coming from the air purifier.	- Clean the filter, or replace if necessary. - Make sure not to use your air purifier in an area with high humidity or while diffusing essential oils.
Filter Indicator is still flash after replacing the filter.	- Reset the Check filter Indicator.
Poor air purification quality.	- Tap Fan Speed Button increase the fan speed.. - Make sure no objects are blocking the front, sides, or top of the air purifier. - Close windows and doors while using the air purifier. - Replace the filter.

Note: If your problem is not listed, please contact Customer Support.

FEDERAL COMMUNICATION COMMISSION

INTERFERENCE STATMENT - PART 15

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1)This device may not cause harmful interference,and
- (2)This device must accept any interference received, including interference that may cause undesired operation.

WARNING: FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly approved by the manufacturer could void the user's authority to operate this equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: A shielded interface cable is required to ensure compliance with FCC regulations for Class B certification.

Warranty Information

Product Name	Air purifer
Model	ZQA-7000A
Date of Purchase	
Order ID	

12-month warranty

There is no other express warranty. This warranty doesn't apply:

- If the product has been modified as is;
- Failure to use the product in accordance with the instructions and directions in the user manual;
- Damage or defects caused by accident, abuse, misuse or improper or inadequate maintenance;
- Damage or defects caused by service or repair of the product by anyone other than an unauthorized service provider or official store;
- Damage or defects occurring in the course of commercial use, rental use or any use other than that for which the product was originally intended;
- Damage or defects that exceed the cost of the product.

This warranty applies only to the original consumer purchaser of the product and is not transferable to any subsequent owner of the product, whether or not the product is transferred within the specified warranty period.

This warranty gives you specific legal rights, and you may also have other rights that vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.
