

Thank You

for bringing me home!

Spruce Me Up

I've been in a dark box traveling. Here are some quick tips to get me settled:

- Remove yellow leaves or broked stems.
- If my soil is dry, give me a drink of water.
- Set me in the right light.

PLANT CARE

Raven® ZZ Zamiodulcas 'Down'

Light

I like bright, indirect light where I cast a strong shadow at least a couple of hours a day, but tolerate low light.

Water

I don't want my roots to stay wet, so let the top two or so inches of the potting soil dry before you water me again.

Food

I don't need a lot of fertilizer, so you can feed me once or twice in spring and/or summer. You can feed me more often if you want me to grow faster.

Features

My new leaves start lime green and slowly become dark purple-black as they mature.

Growing tips

I tolerate low light, but in low light I'm a super slow grower. I can go a month without water if I need to.

Give me friends! I play well with:

Chameleon ZZ Plant, Sansevieria, Philodendron Golden Goddess

*Raven® ZZ Zamiodulcas 'Down' PP30,035 Propagation Prohibited
Not intended for human or animal consumption.
